**HOW DO YOU LOOK?**

**AT YOUR ELECTRIC BILL?**

Do you regard it, simply, as another expense, or do you think of it in terms of service and conveniences and comforts received?

As a servant, Electricity has no modern-day equal—it performs tasks of drudgery, cleans your floors and furnishings, heats your water and cooks your meals without muss, bother or needless expense.

As a convenience Electricity knows no equal. Whether you call on it for light, for refrigeration or for a dozen and one other things you will find it always ready to go to work for you—charging only for actual service, yet always awaiting your finger-tip command.

No other commodity you can purchase will do as much for so little as will Electricity. No muss, no fuss—just clean, concentrated efficiency!
