GIRLS, GIRLS! Get in on the ground floor of a swell new fall accessory idea, one that will provide you with a late summer hobby too. Weave yourself a gay raffia purse. The trick is a simple one. Merely construct one of those little wooden looms with a board and shingle nails, like the ones you used to make table mats on in grade school. Make your loom pretty generous in size because largish bags will be good again this season. Go to an art shop or art department and purchase varicolored raffia. Get bright fallish colors, or get the natural and dye it to suit yourself. Then simply weave two good-sized mats, whip the edges together at sides and bottom, line it with crinoline and lining material, and close at the top with a zipper and presto, you have a very tricky purse.

These few rules give you oodles of opportunity to have your purse different from those of your friends. Variation may be accomplished by color combinations; by using single strands of raffia to make a smooth weave; several strands to make a rough weave; several strands knotted intermittently to give a knobby effect; single strands one way and several the other giving a corduroy appearance; or if you are very clever, designs in the weaving itself. Figure out your own design and get to work.

And here's another suggestion that goes right with this one. Get a pair of plain dark gauntlet gloves and have the shoe-fixit man punch several rows of eyelets in the cuff part. Then with a darning needle threaded with raffia, work in a design of any sort that pleases you and goes well with your purse. The effect is lovely, the work as much your own as those hand-knitted dresses you have found such fun to do. And it's inexpensive too.

Another fashion for fall that will be fun to try is strip-fur trimmings. Stylists decree that you may put a strip of fur all the way around the bottom of the flared or gored skirt of a new wool dress. You may put little flat, narrow fur collar and cuffs on your suit. And another treatment of this idea is to have a fitted suit jacket which fails to meet in front by about five inches; edge the jacket all the way round with strip-fur; and meet the problem of that five-inch space by a short, very wide belt of the material, just long enough to span the gap.

We were unable to find out her name, and so gardenias to the mysterious lady in black moire who made such a lovely picture at the dance last Saturday night.

WHY NOT try and see if you can wear some of the new fall cosmetics. They are definitely on the rust or brownish tones, and are hard to wear. But if by for-

ture they do blend well with your skin tones, the effect is grand—but you must wear them only with the daring new fall colors.

to the etiquette authorities in general, you should only ask if you notice ash trays or other smoking equipment about the room; if there is none refrain from smoking until your hostess asks if you would care to or until you leave. This is not a hard and fast rule, just a safe one. Just don't light up when the spirit moves you, that's all.
