Guests of the Don Whitneys over the week-end were Mr. and Mrs. Charles Mack and Mr. and Mrs. George Rose of Klamath Falls.

Most Knowledge Comes To Us Through Our EYES...

A large percentage of what we KNOW and what we have learned was imparted to our brain through our power to see. For that reason, it is more important than ever, with children of school age, to see that they have proper lighting at home for study and recreation!

THERE ARE A DOZEN WAYS—

Perhaps your youngsters cluster in the living room, or do their homework in some comfortable corner of the house. In any case, there are proper lamps, fixtures and shades that will give an abundance of soft, white light right where it is most needed—at a surprisingly low cost. See your electrical dealer today and discover how many types of floor, table, bridge and reading lamps will relieve your family of eye strain and fatigue! Note, too, their reasonable price-tags. Give vision the "GO" light in your home!

Gale Rush Perforates Hand With Rifle Ball

Gale Rush, Ashland high school student, suffered injuries to his right hand Sunday morning when a .22 caliber pistol was accidentally discharged, sending the bullet through the hand and chipping a bone.

The accident occurred as Wayne Van Hardenburg took the gun from a dresser top at the Van Hardenburg home on Siskiyou boulevard and handed it to Rush for inspection.

Rush, who was expected to be a likely high school football prospect, will be benched for a month while the injury heals.

THEY JUST DON'T TEACH SOME THINGS IN SCHOOL—

No, sir! Some things you learn outside the classrooms. Us, we've learned a lot of useful things about welding—fixing broken parts, repairing cracked blocks and castings, fashioning new fittings and rebuilding worn places. When your machinery—of ANY KIND—goes to the foot of the class, it's time to see us. We feature both portable and stationary gas and electric welding—and charges are moderate!
