GOVERNOR MARTIN AND OLD AGE ASSISTANCE

The improvement in the condition of the State's finances resulting from better control and management of expenditures, made possible the enactment of an old age assistance plan two years before the date required by the Federal Law and, later, the reduction of age from 70 years to 65 years.

As a result Oregon ranks twelfth among the States in the matter of payments for old age assistance, and tenth in the ratio of beneficiaries to population. This has been achieved without additional burdens being thrown upon the property of the taxpayers.

Through the efforts of the Governor, and the cooperation of the legislature, the Unemployment Compensation Commission was created to represent the State in the matter of cooperation with federal authorities in the administration of the several Social Security Acts. Through these Federal and State Acts the worker will find security in years to come.
