REAL Summer FREEDOM!

Pleasant days for out of doors . . . hours in the garden . . . tending flowers . . . picnics and breezy drives . . . many of them all just ahead—for those who will be free to enjoy them! By what it does indoors for you, Electricity helps you to get out of doors. For cooking, refrigeration and the many household tasks, your silent servant performs dependably and well and needs no watching.

If you contemplate changing over to modern refrigeration this summer, or if you have tired of stoking a wood stove every few minutes, keep in mind that, in Ashland, Electricity is CHEAPER! You save time, avoid drudgery and practice real thrift when you make your household "electric all the way."

NEW MEDICINE HELPS THOUSANDS

At Last, All Can Enjoy the Benefits of this Amazing Compound

The first local shipment of this herb-bearing medicine is now available. Already many have been started on the road to increased vigor. You, too, can regain your pep and appetite. No longer need you feel listless and fatigued.

Help For All

Weak, rundown, fatigued men and women will thank us for SAYBROOKS YEAST and IRON COMPOUND, combined with NUX VOMICA. Users state they no longer suffer from a poor weakened state of health due to faulty nutrition, and accompanying complaints, such as chronic constipation, weakness and other distressing symptoms of a fatigued, exhausted condition. They state that they do not have that tired, fagged-out feeling in the morning.

Saybrooks a Revelation

Don't take harsh salts or weakening purgatives. Saybrooks contains a mild, gentle laxative—the kind your system needs to keep it working smoothly during this medicine's process of rebuilding. You will be amazed how quickly Saybrooks Yeast & Iron Compound works to strengthen nutrition, energize your sluggish bowels and ease the burden on your overloaded kidneys.

What is Saybrooks?

Saybrooks Yeast & Iron Compound combined with Nux Vomica is technically a tonic and alterative. A standard medical authority defines a tonic as "a medicine which permanently increases the systemic tone by stimulating nutrition." And in some way alters the processes of nutrition and excretion and thereby are of benefit in many diseases of a chronic type." This remarkable medicine does not contain any narcotics or harmful ingredients. Saybrooks is easily assimilated by the system, being compounded entirely from yeast, iron, medicinal roots and herbs gathered from the far corners of the earth and thoroughly tested in modern laboratories for strength, purity and medicinal value.

Vitamins Essential

Modern research has definitely proved that the total absence of any one of the known vitamins will produce death. Partial deficiency of any vitamins produce innumerable disorders, allowing disease to take its toll. Yeast is medically recognized as a rich source of vitamins B and G (B₁₂). Saybrooks is a most pleasant way of administering these vitamins to your body. Another important ingredient of Saybrooks is Nux Vomica.

Known to the Ancients

In medieval times the people had to rely on herbs, roots and barks for their medicines. They learned which herbs to use to enliven their sluggish systems. Among them was NUX VOMICA. Modern science has confirmed the health-giving benefits of this old-time herbal medicine. Its beneficial effects have been carried to new heights by combining it, after much searching, with other effective health-giving ingredients. Today, more than ever, you need the vitalizing strength-giving qualities of Saybrooks.

Modern Times at Fault

Modern living has changed health conditions. We all know that what we eat and what happens to it afterwards should make us feel strong and fine. Yet the high tension under which we live causes us to bolt our food, gorge ourselves with indigestibles, and in a dozen or more different ways, abuse our systems to the point of fatigue or actual physical breakdown. Our intestines become laden with half-digested food; our organs loaded with poisonous impurities; we feel tired, listless, no appetite and suffer from faulty food assimilation causing headaches, constipation and bad breath. We have little strength for our work; we become nervous, worried, morbid and dejected. Our whole body rebels against the conditions which have robbed us of so much of our strength and ability to enjoy life. People who

suffer from these complaints need a general strengthening and building up to put them back on their feet, feeling fit, strong, cheerful and confident. The success of Saybrooks Yeast & Iron Compound combined with Nux Vomica is due to a scientific understanding of this great problem; a sound technical approach to its solution and unstinted praise from the public for the great benefits derived from its use.

Greatly Needed

It makes no difference how many medicines you have tried without success or how long you have been afflicted. We want the people of this community to know that Saybrooks is designed to build up their strength and energy. We want to place a bottle of this essential medicine in the hands of every man and woman from whom modern life is taking its terrific toll. This is also the aim of the makers of this wonderful preparation. They could charge many times the small sum asked for a full pint bottle and thereby derive a huge profit. But in order to bring the benefits of this strength-building medicine to as many people as possible, they have priced it within easy reach of all.

Supply Limited

We have only a limited supply of this wonderful medicine as the demand is such that the makers will not allow us to stock up heavily. Constant laboratory testing (to insure the strength-giving qualities intended) does not allow large quantities to be made at one time.

Act Now!

Delay may cause serious results with its attendant suffering and expense. Feel fine and fit! Start taking Saybrooks today!

Unlimited Guarantee!

Much has been said in praise of Saybrooks, BUT we don't ask you to take our word for it. Try it yourself! If you don't agree that it does all that is claimed for it, we will return your money in full! You take no risk!
