Just 51 years of age
Use all men equally
Several years police work
Temperate in habits
In Oregon seven years
Considerate of all interests
Extensive business experience

Reddy Kilowatt checks up

When he called to inquire how Mrs. Tucker liked her new automatic electric water heater, he was met with the usual enthusiastic response. And no wonder. Not only do Mr. and Mrs. Tucker receive perfect, continuous, hot water service night and day for themselves, but in addition eight others in the house also have access to hot water at all hours. With the automatic, electric heater supplying hot water for ten people, Mrs. Tucker's electric water heating bill last month (April billing) was only \$2.48.

The new water heater is like a giant thermos bottle. It uses less electricity because none of the heat is lost through radiation. It provides an abundance of hot water at exactly the right temperature as constantly as the cold water supply. Also, the new off peak water heater rate, is only 8 mills! Four-fifths of one cent per kilowatt hour.

For complete details about the new water heaters and the special off peak metered rate, see your electrical dealer or plumber, or call this office.

The California Oregon Power Company
