Why shouldn't I take life easy? I have an Electric Range

and I'm feeding my family better than ever before. They enjoy the fine meals my electric range prepares and we all have such a grand time together when they are home because I am no longer too tired or busy to enjoy their company. Of course the main reason for having an electric range is the wonderful foods that come from it. But there's also the saving of time and energy, the freedom from the sort of work that makes women so weary that they just can't help nagging. An electric range is the stove you've dreamed of. The stove that cooks without heating up the kitchen. The stove that watches the cooking process for you. Scientifically regulating the heat to the correct temperature. You can cook a whole meal without ever being in the house... and cook it more perfectly than would have been possible with old-fashioned cooking equipment even if you spent the whole day watching it.

No Charge for Wiring in Connection with Range Service.

WHY USE OIL FOR FUEL?

TO THE QUESTION, "WHY DO YOU USE OIL TO HEAT YOUR HOME?" ONE OF OUR CUSTOMERS ANSWERED AS FOLLOWS:

FIRST—Oil is more economical, costs less to heat my house with oil than with any other fuel I can buy.

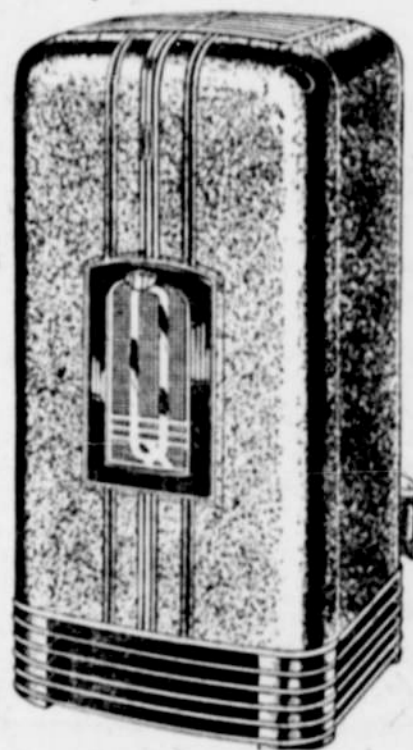

SECOND—There is not the danger from fire there is with wood or other fuel. I can leave my fire burning at any flame desired and know it is absolutely safe at all times.

THIRD—I love the warm, even temperature of the room. There is no hot and cold like we used to experience when we used wood.

FOURTH—It is so absolutely clean—no dirt, no dust, no odor, no noise.

FIFTH—So easy to operate, nothing to do but turn it up or down as you need more or less heat.

This is the expression of one of the users of our Quaker Oil Burners and we could give you the names of a hundred other Quaker users in Ashland who are just as well pleased with their change to oil fuel to heat their homes and we can guarantee you this same satisfaction.

BEGIN NOW to enjoy the comfort, pleasure and economy that a Quaker Oil Burner will bring to your home—forget the drudgery of the wood heater with the dirt and dust caused by the wood and ashes. Get away from the temperature variations—enjoy the comforts of a Quaker Oil Burner.

NOTE—The name "QUAKER" is on every heater made by Quaker Manufacturing Co. Look for the name "QUAKER" if you want a GENUINE QUAKER HEATER!

Again the Question Has Often Been Asked of Us—

How Can I Be Sure of Buying the Best Home Heater on the Market?

There is only one way of making certain that the oil heater you buy is the best: And that is to know what to look for and from this make careful comparison. In buying an oil heater there are certain questions uppermost in your mind. You want to know something of the design, because it is going to be part of your home. You want to know how it operates so that you can be assured it will serve you dependably. You want to know what special features it has for convenience, comfort and economy. You want to know what others say about its performance. You want to know the background of the company behind it.

Quaker was first to recognize this demand for artistic styling and for years has led the industry in beauty design. Now, on its 50th anniversary, Quaker offers new designs, new beauty to enhance the beauty of your home.

By experience alone can you be sure it is going to operate to your satisfaction. However, there are more than a hundred Quaker users in Ashland who will gladly confirm the statement that we guarantee satisfaction. Ask anyone who owns one.

The special features for convenience, comfort and efficiency are found in Quaker flame—the oil control valve—the 50 years experience in burner body building and the economy burner, this feature being the secret of why Quaker produces more heat from a gallon of oil than any other make of heater. Is it any wonder that Quaker, with 50 years of experience back of it, can assure you of the finest heater for your money?

And now, Quaker offers special values in commemoration of 50 years of heating progress.
