Fix Up

Your Kitchen

The outdoor months are ahead . . . and most of the family's indoor living will be done in the kitchen . . . so why not make the most useful room of your home the most convenient, the most attractive? When considering modernization of your kitchen, bear in mind the many advantages electricity has to offer odorless, sootless, clean heat for cooking and baking; odorless, non-explosive heat for hot water; silent, certain refrigeration for keeping foods fresh and crisp—all of these advantages are exclusively electricity's. And more important than that, ELECTRICITY COSTS YOU LESS IN ASHLAND! Ask your favorite dealer for further details.
