CAN YOU STOP IN TIME?

Your brakes are the most important safety factor of your car. You call on them every day, many times a day, to prevent an accident. A car darts out from a side street, a child dashes thoughtlessly into your path, a traffic light changes unexpectedly. The BEST brakes are none too good!

Let us help you keep them in shape, by making regular tests on our Weaver Brake Tester. A test takes only one minute, and it's FREE. It measures your brakes separately during an actual stop of your car—you merely drive on and stop, read the gauge, and drive off ahead.

We are proud of our brake service department, because at comparatively small cost it is sending out cars with brakes in shape to meet any emergency, as well as stand up to the thousands of ordinary stops called for every day.

Drive your car in today for a free inspection.
