

Southern Oregon Miner

Published Every Friday at 167 East Main Street ASHLAND, OREGON

Leonard N. Hall Editor and Publisher

Entered as second-class matter February 15, 1935, at the postoffice at Ashland, Oregon, under the act of March 3, 1879.

SUBSCRIPTION RATES (In Advance)

ONE YEAR \$1.50
SIX MONTHS 80c
(Mailed Anywhere in the United States)

"THE TRUTH WILL SET YOU FREE"

WE'VE ALREADY REPAID LAFAYETTE, SO LET'S STAY OUT THIS TIME!

For some reason which has always been unrevealed to The Miner, Americans are supposed to have a great loyalty for England. Aside from our similarity of speech and racial descent (or escape, if you read history) there is little actual basis for unusual affection.

As this department remembers its history lessons, the colonies' principal enemies were the same countries which now roll sheep's eyes in the direction of America and tell us they're fighting "our fight." From the Boston tea party down through the war of 1812 England has been a recurrent foe which the United States was able to outwit. It was not until the World War when we became allies of our traditional oppressors that they were able to really take us in. Now we are being asked, by inference and direct appeal to our emotions, to again jump in on their behalf.

An insidious effort is being made to paint true neutrality as pro-Hitlerism. The allies would like nothing better than to see American citizens who believe we should stay out of Europe's quarrels branded as traitors and "fifth-columnists."

We are being told that the British navy is our one protection on the Atlantic side of the continent, but it now looks as though the English fleet is scant protection for its homeland. And as for the allies pledging cooperation or mutual protection in return for our military indulgence, look at their record in the present series of events: Czechoslovakia, Poland, Finland, Denmark, Norway, Holland and now Belgium have fallen with little more than lip-service assistance from the allies who had promised so much.

Although The Miner certainly admits no defense for the treacherous, murderous tactics of Hitler, it believes the allies' claims of righteousness and vehement condemnation of Germany to be a case of the pot calling the kettle black.

Let's keep out of Europe's quarrels. Neither side went into this conflict with clean hands and clear conscience, and our dear friends the Europeans would like to have us pull out their chestnuts once more.

Our patriotism, our sympathy and our industrial and economic strength were born on American soil—let's keep them here and use them to build up our security rather than squander them in another futile attempt to rescue a declining allied dominance in Europe.

Our best citizens during these next few months or years will be those who believe Americanism means staying at home and keeping our own front porch in readiness for unwelcome company. Meddling in another continent's grievances is like jumping into a family quarrel—and no good can come of it to anybody.

THREE-DECKER PULLMAN BERTHS

We've had the three-decker sandwich and the three-decker bus and now we are about to get the three-decker railroad berth.

The Pullman company is turning out a combination coach-sleeper that will have the berths in three layers: lower, upper and stratosphere.

The new car will represent the combined talents of the railroad, the hotel, the trailer and the parlor-magic industries. Your chair is a railroad chair one moment and—presto!—a three-passenger boudoir the next.

Through the new car the Pullman company carries the art of concealing plumbing to new heights. There are almost as many fixtures hidden under one seat as you will find in most plumbers' supply windows.

The new car is a de luxe coach without the conventional center aisle. The aisle is now about three points to starboard. There are accommodations for 45 passengers. Nothing more than the appearance of the porter with a few mysterious motions is necessary to eliminate the seats and substitute the ground floor, mezzanine and terrace berths.

It has everything but elevator service between bunks.

When all three occupants desire to go to bed at once there is no problem. But it will become a matter for the American Railroad association, the RFC, the SEC and the sundry private and federal agencies when one man wants to turn in and the other two want to play rummy.

Elmer Twitchell's chief concern is that he will be in a lower on a rough road when two fellows in the uppers have breakfast in bed.

The modernization of railroad cars within the last few years has been amazing. So rapid has been the trend that when a man gets into an old-time railroad car today it is like climbing into a 1908 air-cooled Franklin roadster.

And what the roads have done to the dining cars is nobody's business. They even have hostesses in 'em. She's the brunette who, when you enter all alone, holds up her index finger and asks, "One?" This shows

Susie L. Allen as of record Vol. 77 of Deeds on page 2, Records of Jackson county, Oregon.

Also: Subject to the conditions, rights and privileges relating to West party wall of the premises herein described, contained in an agreement made between J. Syd McNair and Susie L. Allen with N. J. Reasoner as recorded in Vol. 88 of said Deed Records on page 458 and Deed of Record Vol. 87, page 414, thereof.

Said sale is made pursuant to an execution issued out of the Circuit Court of the state of Oregon for Jackson county on the 20th day of May, 1940, in a certain cause wherein G. S. Butler is plaintiff and O. T. Bergner, et al, are defendants.

Dated May 24, 1940.

SYD I. BROWN, Sheriff,
By HOWARD GAULT,
(M 31, J 7-14-21). Deputy.

United States Department of the Interior General Land Office, O. and C. Administration, Portland, Oregon. Sealed bids, marked outside "Bid for Timber," and addressed to the Chief Forester, O. and C. Administration, 410 Custom House, Portland, Oregon, will be received until 10:30 a.m., Pacific time, June 7, 1940, for the purchase of timber upon tracts hereinafter described; the cutting and removal of the timber to be carried out in accordance with the forest practice rules approved on July 7, 1938 by the Secretary of the Interior. Each bid must state the amount per thousand feet, board measure, that will be paid for each species or class of timber. No bid for less than the appraised value will be considered. Each bid must be submitted in duplicate and be accompanied by a deposit. The deposit must be in the form of a certified check on a solvent National bank and in favor of the Chief Forester of the O. and C. Administration. The amount of the deposit will be computed at the rate of at least 20 per cent of the first \$1000 of any estimated stumpage value; at least 10 per cent of the next \$9000 of any estimated stumpage value and at least 5 per cent of any additional estimated stumpage value in excess of \$10,000 and up to

how dizzy those diners are. We hope that whatever happens the roads don't put on three-decker diner tables.

Mussolini's attitude may be described as that of a man who is working hard for peace with both fists.

FAIR ENOUGH
Roger Babson, he's a dry. To be a President he'll try; He will not take a drink with me—Nor will I drink with Roger B.

"The fate of the German nation for the next 1,000 years is at stake," says Der Fuehrer. What's 999 years and six months in a crisis like this?

THE GULL AND THE EARTHQUAKE

A seagull, tired out from a long journey, flew toward land and lighted on a crab, but as it happened an earthquake occurred at that identical moment. To the dismay of the little bird the whole line of rocky cliffs seemed to tremble suddenly, lift upward and then collapse beneath him.

At this the gull flapped his wings and flew back to sea as fast as he could, screaming tragically: "See the evil thing I've done! ... I lit on the crab for a moment, and as a result I've wrecked the whole coast line!"

His companions consoled him as best they could. "I don't think I'd take all the responsibility," they said gently. "There was an earthquake, too, you know."

William March.

SPRING VERDICT
Some men assert they outings take To fish a mountain flow, When really their main pleasure is To let their whiskers grow.

EDUCATION FOR OUR ELDERLS
People are always writing articles on how to bring up children. Why doesn't someone get real courageous and write a book on how to bring up parents?

The other night "Moonlight Serenade" was being played on the radio, and do you know that my father didn't even know it was Glenn Miller's theme song? He doesn't even know what boogie-woogie music is. It doesn't seem to bother him at all.

\$25,000 in amount. The deposit of any successful bidder will be credited as a first installment in the payment for the timber. Checks of unsuccessful bidders will be returned upon award of the bid. A bond on all sales will be required in an amount computed at the rate of at least 20 per cent of the first \$10,000 of the bid, plus 10 per cent of any additional amount of the bid in excess of \$10,000. Payment for timber will be required in advance of cutting, payment in full at the time of filing the contract being required in sales amounting to \$2500 or less. In larger sales, payment may be made in a number of installments scheduled to keep pace with the rate of timber cutting and payable upon demand from the Chief Forester. The successful bidder in each sale exceeding \$5000 in amount will be required, prior to the approval of the contract covering such sale, to furnish a sworn financial statement showing ability to fulfill the terms of the contract. For copies of the form of proposal, form of contract and bond, and other information, application should be made to the Chief Forester, O. and C. Administration, Portland, Oregon. The timber volumes, given in the following appraisals, are estimated and may be more or less than the amounts stated. Living cull trees and young timber less than merchantable size are reserved from cutting. Payment for timber unless otherwise specified shall be based upon the estimated standing timber volume.
