## "What? WORMS in my child?.. Never!"

Don't be so sure, Mother!  
Yes, right now, crawling round worms may be growing and multiplying inside your child without your even knowing it!

This nasty infection may be "caught" from other children, from dogs, from uncooked vegetables or bad water. And the outward signs are very misleading. For example: Squirming and fidgeting, nose-picking, and scratching other parts. Unsteady stomach. Finicky appetite. Biting nails.

If you even suspect that your child has round worms, get JAYNE'S VERMIFUGE right away! JAYNE'S is the best known worm expellant in America. It is backed by modern scientific study, and has been used by millions, for over a century.

JAYNE'S VERMIFUGE is pleasant tasting and gentle, yet it does a good job. Jayne's has the ability to drive out large round worms without upsetting the digestive system. JAYNE'S VERMIFUGE acts merely as a mild laxative, if there are no worms.
