Is your child a NOSE PICKER?

It may be just a nasty habit, but sometimes nose picking is a sign of something nastier. It may mean that your child has round worms—especially if there are other symptoms, such as itching, finicky appetite, restless sleep and itching in certain parts. People don't like to talk about bowel worms, so you may not realize how many children have this dreadful infection. They "catch" it from other children, from dogs, or unwashed vegetables, or infected water. If you even suspect that your child has round worms, get **JAYNE'S VERMIFUG** right away! Jayne's is the best known worm expellant in America, it is backed by modern scientific study, and has been used by millions, for over a century. **JAYNE'S VERMIFUG** is pleasant tasting and gentle, yet it does a good job. Jayne's has the ability to drive out large round worms without upsetting the digestive system. If there are no worms, it acts merely as a mild laxative.

Expenses Over Income
 He is poor whose expenses exceed his income.—La Bruyere.
