COOL DRINKS ARE REFRESHING ON HOT SUMMER DAYS

(Recipes Below.)

Even on the stickiest, hottest summer day, a good tart, icy drink will refresh you. Fruit drinks, in particular, are good; when you drink a frosty tumbler of lemonade or chilled orange juice, you not only feel cooler, you are cooler. Fresh fruit drinks actually ward off the heat of summer.

Fruit beverages provide the minerals and vitamins the body requires, and, because of the sugar added for sweetening, are fairly high in food energy.

It's very easy to serve "soda fountain specials" at home. Any combination of fruit juices makes a delightful and refreshing beverage—provided some of the more tart juices, such as those from lemons, slightly sour oranges, or rhubarb—are used to keep the beverage from tasting too sweet and flat. Use slices of orange or lemon, mint leaves, whole, fresh or canned cherries or berries, for garnishing. Ice cubes for chilling fruit drinks or iced tea might be frozen from orange or lemon juice, to avoid diluting the beverage. Mint leaves, bits of lemon peel or cherries can be frozen into the cubes. For iced coffee, pour some of the coffee into the freezing tray of your refrigerator, and freeze. Then use the coffee cubes for chilling the drink.

Sugar syrup, used for sweetening, is easily mixed throughout the whole drink, and makes a smoother tasting, smoother textured drink, than when unmelted sugar has been added. To make the sugar syrup, boil 4 cups of sugar with 4 cups of water, for 10 minutes. Pour into clean, hot jars, and seal. Store in refrigerator, and use as needed.

Serve crisp cookies or dainty sandwiches with iced drinks for simple afternoon or evening refreshments.

Lemonade.
Follow these three rules if you want to make perfect lemonade: Use fresh lemon juice and plenty of it; sweeten to the taste of each—not too much sweetening for folks who like it sour—sweetener for those with a sweet tooth; use ice and more ice. For each person served, allow:
1 lemon
1 to 2 tablespoons sugar or honey
1 cup cold water
Ice
Extract lemon juice. Add sugar or honey to taste. Stir to dissolve. Add water. Serve over ice in large glasses. Garnish with lemon slice on rim of glass. To make lemon fizz, make lemonade with carbonated water.

Tips on Wash Dresses
When purchasing materials for washable garments, make sure that buttons, belt buckles and shoulder paddings are of the sort that will stand up under frequent tubbings and that contrasting materials for trimmings, braid or bindings are also color-fast.

Double Duty Equipment
Ingenuously designed to do double duty are two new pieces of household equipment—a washer that becomes a useful kitchen table when it isn't in action and an ironer that folds into a handsome hardwood cabinet, suitable for use in the living room.

To slaughter and to pillage
Is quite a proper course;
One bombs the Red Cross emblem
Without the least remorse;
To lie and trick and threaten

Is something big and fine
But polished nails and lip rouge—
They are a pagan sign!

To tear up written treaties—
Ah, that is quite okay;
To break the solemn promise—
It's done by us each day!
To jump on little nations
Is not wrong in the least,
But lacquer on a lady—
It truly marks the beast!
III.

Machine-gunning the aged
Is something done in stride;
Great racial persecutions
Just help to swell our pride;
A blitzkrieg is a process

Most civilized and gay—
But fingernails when colored
They mark the heathen way.
IV.
To set the world on fire
Is quite a normal act;
To terrorize a planet
Is normal; it's a fact!
The U-boat and the bomber
We do not think unkind
But slacks upon a woman
Reveal a savage mind.
V.

A gas mask on a baby,
Ah, there's a pretty sight!
An ambulance when burning
Is perfectly all right;
A child in bombproof shelter
Is nothing very sad,
But lip rouge on a woman—
Ach, Gott! but that is bad!

Tokyo is terribly indignant because Uncle Sam has decided not to sell her any more gasoline. Nations that chase democracies up dark alleys and run over them every chance they get can't see what on earth could make a democracy stop furnishing the gas and oil.

HOME EMERGENCY
The way the Yanks are going, why isn't it a good idea to forget about giving those 50 destroyers to England and give them to Joe McCarthy?

The question put by the French court to all those former leaders will be obviously, "Do you plead guilty or guilty?"

The treasury department reports that there were only 50 Americans in 1938 with incomes of more than a million dollars. And nobody is more surprised over it than the Americans with the incomes.

New Autumn Suit Silhouette Registers Rigorous Changes

By CHERIE NICHOLAS

BEST dressed women have long since proved through experience the wisdom of investing in a new suit at the very start-off of the autumn season. In a smart suit and a goodly supply of eye-thrilling accessories you have an investment that will yield a hundred per cent to the good right through until fur coat time and then likely as not you will be wearing your suit under your coat on many a wintry day.

The call for a new suit (with accent on new) becomes positively imperative this particular fall because lines have undergone such drastic change they make a last-year model look hopelessly passe. The new silhouette somehow contrives to give the impression of being narrow and straight though as a matter of fact it does not at all times entirely eliminate pleats and other devices that insure free and easy movement. As to jackets, they are slimmed and lengthened to give the new long-torso look.

Just now the world of fashion is all agog concerning the handsome, neat and trim black silk suits made either of faille or bengaline or smart moire. The charming skirt centered in the picture is tailored of black moire. The skirt is interesting because it is skillfully manipulated to preserve the coveted slender line so indicative of the new trend, at the same time that unpressed pleats are introduced. Also the long-torso contour, which is a major fashion law this season, is interpreted in the smartly tailored

Long Gloves

In this picture below-the-elbow sleeves and long gloves meet in just the right spot to look fashion-correct. These American-made slippers of velvety soft mocha make a dramatic contrast to the natural Russian lynx jacket. While the gloves' extra length and their exquisite finish give them an extravagant air, the fact that they are American made means long wear and washability, thus keeping them in the practical class.

Ladylike Fashions

The new autumn style program places the emphasis on dignity and conservatism in dress. The majority of frocks arriving are simply fashioned carrying their style message through an entirely new silhouette that narrows skirts into easy natural lines, modifies shoulders in bodice, blouse and jackets, lengthens sleeves to below elbow or to wrist.

The early call is for blacks and browns and rich greens in suit or ensembles. Hats are not freakish and they are styled to fit snugly and they are tuned to the type of hairdress you adopt.
Materials say quality at a glance. The dresses in the new collections are designed along simple wearable lines, glorified with fetching details that bespeak their newness.
And when all is said and done, you are going to be charmed with the new order of things in that good taste is evidenced all the way through heightened with dramatic touches of color in jewelry and gloves and other accessories that add fascination to the entire scheme of costume design for the coming months.

Jersey for Dress

The Coming Season
When you dress up this coming season, you will probably put on jersey, but you may not recognize it as such, it will be so changed. Afternoon dresses are being made of uncut velvet jersey and dinner gowns of ribbed crepe jersey. Evening gowns will be shown in thin chiffon gauze jersey and a two-faced iridescent jersey, each side a different color, while shiny white velvet jersey will be seen in wedding gowns.

Military Headgear

From New Zealand
The picturesque headgear of the Australian and New Zealand soldiers is influencing much of the new millinery shown by London hat designers. These styles have high pinched crowns and wide brims. Some of the brims are simply flat and straight, while others turn up at one side and fasten under the chin with a military looking strap.

Easy-to-Make Slip Flatters the Figure

YOU can't just wear any old slip and expect your small-waisted frocks to have the smooth, suave, round-bosomed line they should have. Here's a design (1892-B) especially planned to do its part toward figure-flattery, and to fit as only a slip you make to your measure can fit. The top has bosom gathers to give you a little extra fullness. The waistline is dart-fitted so that it melts into your middle just beautifully.

These are simple details, very easy to do, but they make all the difference in the fit of your slip, and therefore in the fit of your frocks. There are seven easy steps in your detailed sew chart. Make yourself a whole wardrobe of slips like this, light and dark, of satin, lingerie crepe or taffeta, and some batistes and linens for your coming cottons.
