MOTOR SWAY

SWAYS SQUEAKS AWAY

Lubrication Practically Under Driving Conditions

INCREASES THE LIFE OF YOUR CAR
DECREASES REPAIR BILLS

WE—Pull the spring leaves back into their natural curl—we call it "Temporary Re-arching."

WE—Put the proper lubricants where the ACTUAL WEAR takes place—the highest points of friction.

WE—Permit 100% lubrication, apply grease while car is in motion and while weight of the body is on the MOTOR-SWAY.

WE—Spread spring leaves even inside the covers to actually put lubricants between leaves—not just smear on the outside.

WE—Locate that HIDDEN BODY SQUEAK; we detect impaired parts.

WE—Lubricate "Knee-Action" cars. See it work, it's perfect while the parts are all in motion—"floating action"

WE—Lubricate and free bearings even in winter so snow and water won't rust them—also FORCE OLD LUBRICANT OUT and FRESH LUBRICANT IN.

WE—Make old cars ride like new ones, keep new riding like NEW.—We prove it.

AT NO EXTRA COST
