### Food Dealers Cited

#### For Stamp Misuse

Citations for alleged non-compliance with federal regulations governing the food stamp plan have been issued to 16 Oregon food retailers, according to announcement made today by M. Louis Belangie, area supervisor of the Surplus Marketing administration.

Charges were for selling such items as gasoline, cigarettes, beer and other non-food commodities in exchange for food stamps.

"It is unfortunate that there always are a few who try to beat the game," said Belangie. "The vast majority of food retailers in the northwest are doing a commendable job in selling the farmers' surplus crops through the stamp plan and it is with their cooperation that we are going to eliminate the violators from sharing in the stamp business."

Penalties for misuse of food stamps include being disbarred from further participation in the plan, jail sentence up to 10 years or fines up to \$10,000.

Belangie pointed out that the public assistance person using stamps is liable to the same penalties.
