Craters Down Eugene In Week-End Series

The Medford Craters made a clean sweep of their two-game week-end series with the Eugene Athletics at the Crater park when they took the Saturday night exhibition tilt 5 to 3 and went on to top the Sunday league encounter 5 to 2.

Chuck DeAutremont, former SOCE athlete now playing with the A's, slammed out the first homer of the park's season when he belted one over the left field fence with none on.

In another Oregon State league game Silverton whacked Bend 12 to 6 at Bend Sunday after stopping Klamath Falls 10-0 Saturday night.

The Medford Rogues, traveling to McCloud for an exhibition game, were rained out. The Rogues meet Crescent City in a Southern Oregon league game at Medford Sunday. Grants Pass draws a bye in league play due to Rogue River dropping from the circuit.

RAILROAD CARS ARE NOT WAREHOUSES

The railroads of this country have adequate facilities for handling today's record-breaking traffic. But railroad cars cannot be used as warehouses. That is the gist of a recent talk by Robert S. Henry of the Association of American Railroads.

Mr. Henry dealt principally with what he termed "the greatest combined job of transportation, marketing and storage which is done anywhere in the world—the movement of the winter wheat crop into storage." Many weeks ago the railroads started their preparations. By mid-May, empty cars were moving west in fleets, to insure that a sufficient supply would be built up in advance of the harvest. On May 30, the seven roads which handle the bulk of the winter wheat, had a total of 19,614 such cars lined up—4,631 more than were assembled for the grain movement on the same date last year. Thousands more cars are in current use in the grain belt, and other thousands still will be sent as needed.

The difficulty lies in the fact that this year's carry-over of old grain is the largest ever recorded. Elevators in the wheat belt were filled from one-half to three-quarters of their capacity before a grain of the new crop was moved. The problem, therefore, is to find somewhere to put the new wheat. And that is not a transportation problem.

To quote Mr. Henry again, "Freight cars cannot be used for storage purposes—either for grain or for any other commodity. They are too valuable and too necessary as moving vehicles—vehicles of transportation. Those familiar red-painted boxes on wheels are not storage facilities. They are the moving red corpuscles of the stream of American life and the American defense effort."

In short, the railroads are in perfect readiness to handle the gigantic new wheat crop. The railroads cannot use, and cannot be expected to use, their vital facilities as warehouses. Their business is transportation—not storage.

ELKS INITIATE CLASS

Eleven new members were initiated into the Elks lodge at the regular meeting Wednesday evening. Irving E. Vining, representing the lodge, welcomed the following new members: Charles Henry Jessel, Joe Jessel, Bennie King, Fremont Livermore, Donald Brace, Paul Beare, Kenton Robbins, Ralph McCulloch, Eugene Ritzinger, Ramond Guise and Dr. R. E. Poston.

Exchange: Fryers taken as payment on old or new subscriptions to the Miner.

It's Just "TOO BAD"

A man must feel foolish when he buys insurance AFTER "the horse is gone." It is better to get protection than not at all! Will people say "too bad" after your mishap or will they say "lucky you have insurance?"

Keep Oregon Green Week Gets Support

Enthusiastic response from every part of Oregon is meeting efforts to organize the state for Governor Sprague's "Keep Oregon Green Week," June 30 to July 6.

This is the report of Edmund Hayes, chairman of the executive committee of the Keep Oregon Green association.

John B. Woods, executive secretary of the association, is directing a staff of forestry college students in covering the state in the interests of the special week. Purpose of the field work is to perfect an organization for enrolling members.

"Hearty encouragement is being extended to our workers everywhere," said Woods.

"Oregonians generally express the belief that forest fire prevention is even more important than ever this year, since forest defense is a vital part of national defense."

Sprague Urges Forest Defense

Governor Charles A. Sprague hands statement designating June 30 to July 6 as Keep Oregon Green Week to Nelson S. Rogers, state forester. A statewide mobilization is planned.

Salem, June 18.—Urging the people of Oregon to keep forest fires from the state, as a vital step in national defense, Governor Charles A. Sprague has designated a Keep Oregon Green Week for statewide observance. He made this statement:

Asks Mobilization

"Believing that defense of Oregon's forests is vital to the continued prosperity and happiness of our people and constitutes a very important phase of national defense, I hereby designate the week of June 30 to July 6, 1941, as 'Keep Oregon Green Week'. It is my earnest hope that every adult and child in Oregon may be impressed with his or her responsibility in guarding our magnificent trees from forest fires and wastage of every kind. I call every Oregonian to arms against our forest foes. Let this special week be a time of mobilization in a great cause. Keep Oregon Green!"

Membership Invited

John B. Woods, executive secretary of the Keep Oregon Green association, reports that plans are complete for a statewide enrollment of active members of the association during the special week designated by the governor. Enrollment places will be established in every community where membership cards

and pins will be issued, upon payment of the annual 25-cent dues. Every cent of proceeds from membership enrollment goes for educational and publicity purposes, Mr. Woods said.

Permanent Set-up

The Keep Oregon Green association is an outgrowth of the statewide committee appointed by Governor Sprague to organize the state for forest protection. Dean Johnson of Toledo is chairman and Edmund Hayes of Portland is chairman of the executive committee.

What Forests Mean

In summarizing the values of Oregon's green forests, the association has issued the following statement "What Keep Oregon Green means to YOU":

Scenic beauty which each year attracts hundreds of thousands of tourists.

Shelter for wildlife which makes Oregon world famous as a fishing and hunting state.

The source of 12 cents of every dollar paid in taxes by all the people to the counties and state.

Steady work and high wages to 60 percent of all persons gainfully employed in Oregon manufacturing.

Sixty-four per cent of the value of goods exported from Oregon goods which pay for the things that Oregonians buy in other states and foreign countries.

In short, a raw material crop that assures permanent growing industries and a pleasant healthful place in which to live, work and play.

Exchange: Fryers taken as payment on old or new subscriptions to the Miner.

Charles Bounds and Doyce Morris are in Los Angeles on business.

Dr. Mattie Shaw, Dr. Gordon MacCracken, Dr. Harvey Woods and Dr. E. A. Woods attended the regular meeting of the Jackson County Medical Society in Medford Wednesday evening.
