## Visit The Washington School!

Three reasons given for the proposed replacement of the Washington school building have been listed as follows:

1. Parts of the building are condemned for further use.
2. The remaining space is insufficient for a complete educational program.
3. The safety of the entire building is questioned by the architect.

Of these the safety factor is obviously the most important and adds to our responsibility as voters, for upon our decision rests the welfare and safety of Ashland children. Therefore it is imperative that we study the facts and above all should visit the building personally in order that ours may be an intelligent vote. Many have already visited the school and it will be open for inspection next week. So before the election Thursday visit the structure and see for yourself the conditions which have brought about the coming election.

## Syndicalists At Work!

Webster defines syndicalism in these words: "The theory, plan, or practice of trade-union action which aims by the general strike and direct action to establish control by organizations of workers over the means and processes of production."

It was this kind of syndicalism which brought disruption to post-war Germany, and which was largely responsible for the rise to power of the Nazi dictatorship. It was this kind of syndicalism which did much to paralyze and corrupt France in her hour of gravest danger, and was largely responsible for her final collapse and ignominious military defeat. It is this kind of syndicalism which some ruthless and ambitious labor leaders plan for the United States.

We have seen strikes called in factories which are absolutely vital to our defense. We have seen labor leaders defy the government. We have seen the most extreme and impossible demands made upon industry, coupled with gangster-like threats of what will happen if they are refused. The end these leaders have in mind is clear—syndicalism, a labor monopoly which will be more powerful than the government itself.

Let that happen and this country will be done as a democracy. And the workers of America will find themselves slaves, dominated and controlled by labor dictators. That is the issue we are facing now.—Industrial News Review.

Do you know that a single cigarette dropped on a forest roadside can in a matter of hours call up hundreds of men, fleets of tractors and trucks and even airplanes, an army equipped and backed with mobile pumps, motor and animal supply trains, field kitchens, portable two-way radio outfits, aerial photography, parachutists—all at a cost to as much as \$25,000 per day? Help Keep Oregon Green and save such costs to the taxpayers.

## DO YOUR SHINGLING NOW!

—While all grades of red cedar are available at present prices. This is ideal weather for re-shingling and FHA loans provide easy monthly payments for materials and labor.

## REMEMBER WHEN

—It came your turn to have the threshers when you lived on the farm? The neighbor women came in to help mother with the cooking. Enough good food was consumed to ruin the figure of every movie star in Hollywood. Remember?

## Motor Vehicle Sales Increase 52 Percent

Motor vehicle sales during the first six months of 1941 showed an increase of 52 percent over sales for the same period last year in Oregon, figures compiled by the secretary of state disclosed today.

Sales of new passenger cars and trucks totaled 33,120 units, an increase of 11,339 over the total for the first six months of 1940. Sales of new passenger cars amounted to 28,027 units compared to 18,015 last year while new truck sales totaled 5,095 units against 3,766 last year.

Passenger car sales thus were up 35.7 percent while truck sales were up 26 percent.

- Mr. and Mrs. Harvey Yoder of Indiana, Ernest Brower of La Verne, Calif., Bobby Madden of Medford, Mrs. D. M. Brower, Miss Voda Brower, Miss Velma Brower, Miss Marberry Brower, Allan Brower and Larry Hunter enjoyed a trip to Crater Lake Sunday.
- Miss Alta Norcross, Miss Edith Bork and Miss Florence Allen have returned from a vacation trip in Canada.

## Free, Easy Steering

is not a matter of guess work, but of real scientific adjustment.

WE CAN MAKE YOUR CAR RESPOND TO "TOUCH CONTROL" and give your steering the sensitiveness and stability it had when new.

## FREE INSPECTION AND ESTIMATE

A few small adjustments are all that most cars need. Our inspection is made without obligation—drive in today.
