King 'Tut'

King "Tut" was an Egyptian Pharaoh, known as Tutankhamun or Tutankhaten, who ascended the Egyptian throne about 1358 B. C. He ruled at Thebes, the old Egyptian capital and the site of his tomb, after a schism between two religious factions forced him out of the new capital at Akhetaten. Atenism, the cult of the sun's disk, espoused by his predecessor and father-in-law, was given up during his reign for a return to the old orthodox Egyptian worship. He is believed to have died about the age of 18. The curse of death laid upon anyone entering his tomb made him famous. Archaeologists opened the tomb in 1923, and again in 1926.
