"THE TRUTH WILL SET YOU FREE"

The Impact Of Defense!

The defense effort is beginning to jolt us. To fight for democracy and against Hitlerism, we have turned our factories into arsenals—conscious that we are about to deprive ourselves of some of our most-prized comforts. We are diverting our iron and copper and aluminum to the making of guns and tanks and planes and ships to be used in the defense of democracy.

During the past summer our employment and production, stimulated by defense spending, were at peace-time highs, exceeding even the peak of 1929's boom.

Already the funds allocated for defense purposes have mounted to more than \$60,000,000,000. This is more than all the wages and salaries paid in the United States during 1929, when wage and salary payments broke all records. It is more than the entire national income in any of the five depression years.

The impact of this tremendous program will mean more work, more pay, for Americans.

Gradually, however, the impacts of defense production and spending, and the effects of conservation of materials imperatively needed for national defense, are beginning to hit some of us. In the few months before Christmas, everyone will feel it more and more. Santa Claus will be on hand, but he'll have to deal out Defense Bonds instead of gadgets.

Title of "First Line of Defense" can well be given those youthful farmers of America—the Boys and Girls of the 4-H Clubs.

The Pacific Northwest holds an enviable record in number of 4-H Clubs and members, having a total of approximately 5000 clubs, with membership of nearly 40,000 boys and girls, and a very high percentage in number completing their full time of training.

Mr. O. M. Plummer, General Manager of the Pacific International Livestock Exposition, stated recently during an interview, "There is no question of the value of 4-H Club work in aiding in the Defense Program of our country"

To fully appreciate the work of the 4-H Clubs and how they aid our youthful farmers in the production of pure bred livestock, improved methods and greater efficiency on the farm and in the home, one

REMEMBER WHEN

—the family gathered at the dinner table and you helped yourself to mother's delicious cooking? Everybody took a second helping, sometimes a third. Food was something to enjoy rather than to worry about. Nobody was on a diet and nobody cared. Remember?

Food for thought: We never leave your loved ones alone.
