A combination of professional pharmaceutical services which include prescription compounding and the dispensing of drugs and chemicals for home and farm plus the other indispensable services rendered by modern druggists make Broady Bros. a routine place of call for many of our folks.

Ashland Creamery Has Modern Plant

This well-known concern, is one of the most prominent in this part of the state. Its place is modern and up-to-date in every particular, clean and sanitary throughout. The business is conducted along progressive lines and we are glad to say that this creamery is a credit to the community.

They serve the public in a double capacity, for many farmers and stock raisers ship their milk and cream to this most reliable concern. They have merited the reputation which they have established far and wide for having the top price at all times. Being fair and straightforward in their dealings it is not strange that so many producers are shipping to them daily and receiving the highest market price.

A visit to the plant is very interesting to the initiated. Their business has increased so rapidly that improvements have been made from time to time and today they have a very modern industry. It is the policy of the institution not only to produce cream and milk that will pass inspection, but to turn out products that are as near an approach to the acme of perfection as modern machinery and up-to-date methods will permit.

Bagley Canning Co. Cans Home Products

Everyone knows that no agricultural community is complete without its canning company. The farmers must have a market for the foodstuffs they raise and the Bagley Canning company, located at Helman and Stanley streets, 'phone 4001, is that place. They pay the top market price for produce purchased. They are canners of tomatoes, cherries, peaches, pears and the famous Del Rogue apple juice.

In order for the home community to prosper it must be supported, therefore the one way in which everyone can help is to purchase canned goods from the Bagley Canning company. They offer employment to many local citizens during the canning season, thus they are invaluable not only to the farmers but to the community and town as well. The purchase of canned goods from this cannery also brings much money into the town which might easily go elsewhere.

The factory is an up-to-date establishment. All the latest, best and scientific machinery is used. Their products, as a result, are sanitariously canned and are par excellence.
