NEWS FROM Washington School

By SCHOOL PUPILS

The P-TA membership drive closed Monday, Oct. 6. There were 103 parents and friends that joined the P-TA. Room six had 29 memberships and won the prize. The Sun-Gold creamery donated 7-11 bars of ice cream. We appreciate this kindness very much and we want to thank the Sun-Gold creamery. The P-TA gave suckers to room one for winning second prize.

Betty George of room seven moved to Lakeview. We miss Betty very much.

Washington school is selling defense stamps. We are selling 10 cent and 25 cent stamps. Altogether we have sold about \$18 worth. Mr. Goddard, the principal, is in charge.

Washington school football players are happy over 15 new helmets and shoulder pads. We practice two nights a week after school. We play six-man tackle and have learned several plays. The players have been chosen from the fifth and sixth grades.

Sarita Johnson from room seven has moved to Klamath Falls where she will attend the Fremont school.

At 10 o'clock Tuesday room seven and six children from room eight went to the library. Miss Mason, one of the librarians, explained to us the use of the card catalog and call numbers. We looked up authors and titles of books in the card catalog and then found the books in the shelves. We had lots of fun doing this. Part of the time was spent looking at books and then we thanked Miss Mason and returned to school.

Room seven elected officers last week. They are as follows: President, Dick Leever; vice president, Skippy Rush, and secretary, Annie Fagans.

Rooms six, seven and eight are very happy to have new social studies text books. We have about half enough for each room so far. Room four has a new boy. His

HINDSIGHT ON SPORTS

By I TOLD YOU SO

"Hawk made the tackle" was a familiar sound over the public address system at Klamath Falls Friday night when Ashland was trounced 26 to 0 by the Pelicans. The Grizzly line was backed up by a big husky wearing number 32 who was in on almost all of Ashland's defensive maneuvers and played an important part in offensive plays, such as they were.

The man on the business end of the PA system had reference to Russell Hawk, the boy who was panned in this column at the beginning of football season for his decision to transfer to Medford, a plan which failed to materialize.

Mr. I Told You So has been watching Hawk play high school ball for two years prior to this season and reached a decision that he was no more than a mediocre high school gridster. But the way he performed last Friday night this department takes off its hat to Russell Hawk.

We still feel, however, that the dickering between Ashland and Medford schools, done by Hawk, was out of place.

Our grid forecasts failed to rate space last Friday. The season average now stands at 703 with 26 correct and 11 wrong. This week's guesses:

Washington over UCLA at Seattle.

Washington State over USC at Los Angeles.

Oregon over California at Portland.

Montana over Gonzaga at Missoula.

Stanford over San Francisco at San Francisco.

Santa Clara over Michigan State at San Francisco.

Texas over Arkansas at Austin.

Nebraska over Indiana at Lincoln.

Duke over Colgate at Durham.

Klamath Falls over Medford at Klamath Falls.

name is Kenneth Montgomery. We are glad to have Kenneth with us. We are making Halloween pictures. It is so much fun! We plan to have a party. We are going to make a mask out of paper sack. Jean Turnbull and Norman Gould each played a piano solo for us. They played beautifully and we enjoyed their music very much.

Julia Norby was chosen from our room to be a member of the "Safety Council." We believe this will be a fine organization.

GEMS OF THOUGHT SERVICE

Human merit or demerit will find its proper level. Divinity alone solves the problem of humanity, and that in God's own time. "By their fruits ye shall know them."—Mary Baker Eddy.

Man's chief merit consists in resisting the impulses of his nature.—Samuel Johnson.

Good actions crown themselves with lasting bays; Who deserves well, needs not another's praise.—Robert Heath.

Life is continually weighing us in very sensitive scales, and telling every one of us precisely what his real weight is to the last grain of dust.—James Russell Lowell.

Merit is never so conspicuous as when coupled with an obscure origin, just as the moon never appears so lustrous as when it emerges from a cloud.—Bovee.
