Anglers Asked to Report Fish Count

With the opening of the general trout season drawing near, cooperation of anglers is being sought by the state game commission in reporting results of all fishing trips made during the coming season.

Special catch report cards have been distributed all over the state and may be secured from license agencies, sportsmen's organizations, fishing resorts and state police officers. Anglers are urged to fill out a card and return it to the game commission at the end of each trip even if no fish are caught. No postage or signature on cards is required.

By this means it is hoped to obtain sufficient data to learn the results of the fish plantings made in the past and to determine future policies.
