Telephone Lines Are the Busiest In History

You Can Help Us to Help You

We want you to know that we are meeting the war emergency with everything we have, but in these critical times delays are bound to occur.

In speeding Victory, the telephone lines are busier—far busier than ever before. We cannot plan and build new lines and new switchboards, as we normally would, because copper and other strategic materials have gone to war in planes, tanks, and guns.

Unnecessary and needlessly long telephone calls should be out for "the duration." War calls must be given the green light.

Your considerate thoughtfulness in making only the most urgent calls is inspiring to all of us who are earnestly endeavoring to uphold the finest traditions of telephone service. May we also ask you to help us further to help you by being brief on all calls, by calling by number when making long distance calls, and by answering calls promptly.

Thank you.
