It Takes Both, War Bonds and Taxes, to Win-Victory Tax Special Direct Levy Asked to Help Meet Heavy War Costs

WASHINGTON, D. C .- Approximately 50,000,000 Ameri- | were roughly 2.5 billion dollars. can workers began to make an added contribution to the War cost this month in the form of a 5% Victory tax.

For many millions of Americans the Victory tax and the 1943 income tax are the first direct levies to be made by the Government to meet the staggering War costs. And it will take both . . . taxes and War Bonds . . . to provide the supplies and materials to win the War and the peace afterwards. The Treasury Department esti- *-

mates that the Victory tax will raise has purchased certain War Bonds, approximately \$2,000,000,000. Every or paid old debts or paid life insurance premiums equal to the amount person receiving more than \$12 per of this credit. For example, a mar- of the Victory tax paid (up to a 31 percent of the national income maximum of \$500), Should the Vicried man with a salary of \$50 per tory tax credit exceed the individuweek, with two dependents, would make only a net payment of \$1.06 al's Federal income tax, the unused per week after allowance for post- portion of the credit may be refundable to the taxpayer.

Even with the Victory tax, the The Government has made every 1943 income tax, and all other taxes effort to make the impact of the new tax as light as possible. The paid by individuals, the average American will have more money law, in effect, provides that in the with which to buy War Bonds than case of married persons whose sole he has ever had before. During 1943 total income payments are expected to rise to 125 billion dollars and total personal taxes under existing revenue legislation will be 15 billion dollars-leaving 110 billion dollars of income at our disposal as against only 73.5 billion dollars in 1940.

In 1943 Mr. Average American will still be carrying a much lighter tax load than his Canadian or English brothers-in-arms. In Great Britain total national and local taxes paid by individuals at present amount to In Canada, total individual taxes amount to 25 percent of the national income. In the United States, total personal taxes, Federal, state and local, will amount in 1943 to 18 percent of national income. Our English allies invest an additional 10 percent of national income in War savings. Our Canadian allies invest an additional '1 percent of national income in War savings. We Americans, to match the record of our Canadian neighbors, would have to invest this year 20 percent of our national income in War savings. To match the English record we would ome in War savings.
