FOOD is VITAL for VICTORY

"Growers of food must increase production; consumers must conserve"

This states concisely the VITAL necessity confronting every section of the State of Oregon... both country and city. Food has become one of the most important weapons of war.

The farmers of this state are rallying to produce more essential foods in 1943 than ever before. This bank is glad to give public recognition to their important service and express its confidence that our "Farm Front will back up our Fighting Front."

We urge every citizen to cooperate by conserving the food the farmer raises and to prevent its waste.
