I WAS A SLAVE TO CONSTIPATION

Talk about being in bondage! I felt as if I were walking around in chains. Purges only helped me temporarily. Then I learned the cause of my constipation. It was lack of "bulk" in my diet. So I took a friend's advice and began eating KELLCOG'S ALL-BRAN. It sure is a grand-tasting cereal—and did just what he said it would do. It got at the cause of my constipation and corrected it!

If your trouble is like mine, why don't you try ALL-BRAN? Just eat it regularly, drink plenty of water and—Join the Regulars! Made by Kellogg's in Battle Creek.

RUSSIAN SOCIALISM WANES
 The Russians are doing more than reversing the direction of Nazi military movement. They are also reversing certain important political and social directions.

Americans in Russia now report the reappearance of shoulder insignia on the officers of the Red army—for the first time since the dark days of the Revolution.

In those days, officers who supported the Bolshevik movement wore the epaulets from their uniforms as a mark of democracy. Those who failed to do so were regarded as enemies of the Revolution, and in some extreme cases, mobs attacked them, drove nails through the epaulets into their shoulders.

There is also a change in official awards or decorations, indicating that Bolshevik scorn for heroes of the past is vanishing. Three of the most coveted decorations of the Soviet Union today are the award of "Nevski," who was a 13th century prince, and the awards of "Suvorov" and "Kutuzov," who were Czarist generals at the time of Napoleon.

Also the St. George's cross, which would have been torn from the breast of the wearer a few years ago, has made its reappearance at official functions.

The U. S. public has the impression of modern Russians as dressed in coarse, formless clothing, but reports from the USSR today state that Red army officers dress with such punctilio as to make American officers look shabby by comparison.

LITTLE AID TO CHINA

Just back from Chungking, General "Hap" Arnold, chief of the air forces, gave a glowing report to Secretary of War Stimson regarding Chinese resourcefulness in battling the Japs. He was amazed and full of praise for Chinese ingenuity in repairing planes, landing in cow pastures and conserving fuel.

As far as General Arnold is concerned he would like to send the Chinese a lot more planes—though in the past he has not been too keen about it. (Incidentally, one reason for sending him to China was to win him over to the Chinese cause.)

However, despite Madame Chiang Kai-shek's graceful appearance here, despite Hap Arnold's enthusiasm, despite the President's public statements, China is not going to get anything much in the way of supplies.

Reasons Listed.

Reasons are: (1) the impossibility of opening the Burma road now with the monsoon season only a few weeks off; (2) the absolute necessity of cleaning up Africa and preparing for a drive against Hitler in Europe; (3) Chinese political dissension which requires too many aims for personal armies.

Some war weapons will be flown over the Himalayas, but not much more than in the past.

SECRET RUMI PLAN VOTE

The vote of the house ways and means committee on the Rumi plan was secret, but inside fact is it never had a chance of getting more than five votes.

The flood of mail reaching committee members, at first favorable, turned round and showed conclusively that the country was against outright postponement of taxes. Underlying sentiment expressed in the mail was that although high taxes hurt, it was unfair to postpone too much of the war cost to the next generation.

Also the committee became more and more convinced that the Rumi plan was largely cooked up for the benefit of top bracket incomes, and if taxes were forgiven one year, it would mean shifting a much greater burden to lower income groups to make up the deficit.

This, they concluded, was just what Mr. Rumi's war wealthy clients wanted.

CURE FOR TYPHUS

By way of London has come word that the Germans have evolved a cure for the dread disease typhus. If so, it is a discovery meaning the lives of thousands of men in the eastern front. In 1914 "General Typhus" was responsible for more lives than machine gun fire, and from time to time it has ravaged the Balkans, Russia and eastern Europe ever since.

The German cure was discovered by a Dr. Van Meerdoek and is a combination of atebrian and plasmochin. U. S. Public Health officials have their fingers crossed regarding the cure, but British medical circles seem to be favorably impressed.

Buck Private Felt That Promotion Was Due Him

Accompanied by a driver, an American major in a motor vehicle was stopped by the sentry on guard at a cross-roads.

"Who goes there?"
 "One American major, a one-ton truck of fertilizer, and one buck private."

They were allowed to proceed, but at every cross-roads they went through the same formula.

After a time the driver asked if they would likely be stopped again.
 "I guess so," replied the major.
 "Well, major," said the private, "the next time we are stopped would you mind giving me priority over the fertilizer?"

Help your Grocer
 Let's Get Behind Him and Make Rationing a Success—Start Now to use more of the plentiful NON-RATIONED FOODS

THE man who runs your grocery store has his headaches these days. For months, in the face of shortages and lack of experienced help, he's been trying to carry on... trying to give you the kind of service you've always expected of him.

Now he has a brand new problem—point rationing. He has to collect the stamps from you as well as the cash.

It's a burden for him—sure—and for you. But he knows and you know that it's got to be done. It's the only fair way of making sure that everybody gets a fair share. That's our way of doing things.

So it's his job—and your job—everybody's job—to make point rationing work... as smoothly, as efficiently as possible. Traffic jams in food stores aren't going to help anybody.

Now there are a number of ways in which you can give this grocer of yours a real hand... in a good, neighborly American way. You can shop early in the day, early in the week. You can shop as infrequently as possible—once a week only, if you can manage. You can always make sure to have a shopping list, and to have your "point values" added up before you go to the store.

And you can help yourself as well as your grocer by using the plentiful, non-rationed foods as much as you can, instead of the scarce, rationed foods. Foods such as cereals, fresh fruits and vegetables, home-

cooked soups, home-canned fruits and vegetables are not rationed and they deserve an important place in your wartime meals.

Because cereals are one of these abundant un-rationed foods, we here at the Kellogg factory in Battle Creek have been doing everything we possibly can to meet the unprecedented demand for our products. We're sending millions upon millions of packages of crisp Kellogg Cereals to the boys in our armed forces. We're packing K-ration for troops in the front line of fighting. Even our machine shop is making gun parts! And we're short of help, too. There are 423 stars on the big service flag hanging in the lobby of the Kellogg building.

Other ways to help your Grocer...

1. Shop early in the day.
2. Shop early in the week.
3. Shop only once or twice a week.
4. Prepare a shopping list.
5. Add up total "point" values before going to the store.

But in spite of these wartime difficulties, we've doubled our efforts to be sure that we can supply Kellogg Cereals to the millions of American families who are depending on cereals more than ever.

Always famous for marvelous flavor, every Kellogg Cereal is made of WHOLE GRAIN or is restored to WHOLE GRAIN NUTRITIVE VALUES through the addition of thiamin (vitamin B1), niacin and iron. With milk alone, or with milk and fruit, a bowl of crisp, delicious Kellogg Cereal gives you vitamins, minerals, protein, food-energy in one dish!

And remember this about cereals in your daily meals. They're quick and easy to prepare. No cooking, no pans or skillets to clean up. Even the dishes are easier to wash.

Cereals save time—work—fuel—other foods. Used in hamburger, meat-loaves, croquettes, etc., they help you stretch your meat... and they make milk go farther, too.

Think of cereals as one of your best, most nutritious, non-rationed foods and think of Kellogg Cereals as the finest you can buy.

FROM O.P.A. CONSUMER INSTRUCTION SHEET

"EAT MORE CEREALS—There is an abundance of cereals and, as you know, they are mighty economical. They are nourishing and delicious—what's more, cereals can be used to stretch your rations when mixed with vegetables and fruits."
