The M-4 tank was the first to carry a device developed by Westinghouse engineers, which is said to improve the accuracy of gunfire by more than 200 per cent. According to General Campbell, the 75-mm. gun can be fired when the tank is in motion. Enemy tanks, regardless of size, cannot do this.

### SOCIETY MET FRIDAY

The regular meeting of the Women's Society of Christian Service was held in the church parlors last Friday. During the business session plans were completed for the Golden Wedding celebration April 11. Plans for decorating the church parlors were discussed. At noon a nice luncheon was served by Mrs. W. A. Stratton and committee.

After the prayer circle the afternoon program began with the devotional service led by Mrs. Reba P. Kelsey. Mrs. L. R. Coder gave an interesting review of the fourth, fifth and sixth chapters of the study book, "On This Foundation," by W. Stanley Ryeofft.

**CANNING CIRCLES URGED TO USE STEAM COOKERS**  
Cooperative use of pressure cookers for canning purposes this year is strongly urged by Dean Ava B. Milam, chairman of the state nutrition committee for defense and head of the school of home economics at Oregon State college. The shortage of pressure canners is acute and only a few will be available for purchase this year, she says.

"Though the first peas are just beginning to poke their heads through the soil, victory gardeners are looking forward to the harvest and the problem of canning, drying, and freezing the products for future use," said Dean Milam. "I suggest the formation of canning circles, each consisting of six or more families cooperating in the use of one cooker. Women in the circle can not only take turns using the canners but also help one another to get vegetables ready to can, thus making the task lighter and more pleasant for all."

Such canning circles are by no means an original idea, Dean Milam explains, as families in many Oregon communities last year shared their pressure cookers with those who could not buy them for themselves.

"Anyone who has a pressure canner to share will help the whole cause of food for victory by notifying the county nutrition chairman or home demonstration agent of its availability," Dean Milam concluded. "They will help see that every canner does its full share toward victory, with a minimum of 'absenteeism'."
