

Uncle Phil Says:

A MAN needs two kinds of brains. One to say witty, brilliant things and another kind to keep him from saying them in the wrong place.

If the time doesn't suit you, suit yourself to it.

As a man thinks, so he is, therefore some people never are.

A woman is always perfectly sure she is right until it comes to backing up her opinion with money.

It is only the very rich who are emphatic about the futility of riches.

Once the foresighted farmer planted his watermelons in the center of the cornfield, but with all those airplanes overhead—where now?

Some men are known by their deeds—others by their mortgages.

Hooked Fish

Fish suffer little if any pain when they are hooked, for there are very few nerves about the jaw which could cause the sensation of pain. Some trout have been known to be hooked two or three times in the same day—by anglers using the same type of bait.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Quite Doubtful

"What is political economy, dad?"

"To be perfectly candid, son I can't tell you. Sometimes I think there isn't any such thing."

Convinced Him

Jim was accused of stealing a pig. He secured the services of a lawyer and was acquitted. Later the lawyer seeing him alone, said, "Come, Jim, tell the truth. You did steal that pig, didn't you?" "Well," replied Jim, "I thought I stole dat pig, but after hearing you talk, I don't believe I did, sah."

Relapse Coming

Young man in hospital—Nurse, I've fallen in love with you. If I get well I'll have to leave, so I don't want to get well.

Pretty young nurse—Don't worry, you won't. The doctor's in love with me, too, and he saw you kissing me this morning.

Bulls'-Eyes

Tattered and bandaged, he was applying for a separation order.

"My wife ain't safe, sir," he pleaded. "She's been throwing things at me ever since we got married."

"And only now, after 20 years, are you seeking the court's protection," said the magistrate, skeptically.

"Well, sir, her aim's getting good!"

When armored knights met, it was customary for each knight to raise the visor of his helmet as a means of identification. This gesture has come down through all armies in the form of the salute. Traditional, too, is the Army man's preference for Camel cigarettes. With men in the Army, Navy, Marines, and Coast Guard, actual sales records in their service stores show that Camel is the favorite. It's one of the favorite gifts with service men. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard whenever they are.—Adv.

AROUND THE HOUSE

It's handy to have someone hold the skein of yarn on outstretched arms while you wind it into a ball. But if no one is present to perform this service for you, simply slip the skein over the lamp shade, loosen the top screw, and wind away. The shade will turn as you wind.

Children are more apt to like helping with the family work if they are also permitted to help with the planning of the work.

Since crisp cookies and crackers soften if kept with bread and cake, keep them in airtight tins or boxes of their own.

If your time is limited cut the vegetables into smaller pieces than usual; they will cook more quickly.

Stirring air into hot food during cooking or sieving increases vitamin destruction by oxidation.

If there is a tear in your lace curtain, tack tissue paper over it, loosen the tension on your sewing machine, and stitch back and forth across the paper both ways until it is covered. A strong durable mesh will result. Paper may easily be removed when the curtain is laundered.

Do not wash eggs before putting them on ice as washing destroys the protective film that keeps out odors and air.

25 Tons of Violets for One Ounce of Perfume

Ever since the dawn of civilization woman has used perfume as an allure. At one time, when baths were looked upon as both unhealthy and ungodly, perfume was a necessity, but since then women have used it as an added attraction, something that accentuated their femininity.

Some of the best perfume came from France, Italy and the Balkans. In those countries perfume-making was a very important trade, and millions of roses, jasmine, violets, and other flowers were harvested. These were bruised, boiled, and pulped until they had given up their oils.

The petals were boiled in water, the steam caught and condensed, and the essential oils skimmed from the surface. It was an expensive process, too, for it took 3,500,000 roses to make one quart of pure perfume. One ounce of pure violet perfume was the result of the compression and pulping of 25 tons of blooms.

When the oil was finally extracted it was very strong, and a single ounce of it would be sufficient for many thousands of bottles.

Is the number of your house clear and plain to the passing public? Perhaps it needs a freshening up with some black or gold paint and that is all that is wrong with it. Friends, delivery boys, and letter carriers will all appreciate a plain, easily found number. In some suburban districts the number is painted in white on the curb, making deliveries a simple matter.

A common clothespin, split in half makes two ideal and economical pan scrapers which do not rust or scratch enamelware or precious aluminum.

The best coat linings are made of slippery material which will help to get the coat on and off easily.

If the sugar in a pie is placed between two layers of fruit, the juice is less likely to boil over.

60 Was Basic Unit

The ancient Babylonian numerical system had 60, not 10, for its basic unit, reports Dr. George C. Cameron, University of Chicago archeologist who has been deciphering thousands of clay tablets.

While 10 can be factored evenly only by one, two, five and itself, the Babylonian unit had the advantage that it could be factored by one, two, three, four, five, six, ten, twelve, fifteen, twenty, thirty and itself.

Youth Took Lesson on Heart With Feet Down!

"Charles," said the sharp-voiced woman to her husband on the train, "do you know you and I had a romance on a train?" "Never heard of it," said Charles. "Don't you remember it was a pair of slippers I presented to you the Christmas before we were married that led to our marriage? You remember how nicely they fit, don't you? We were going to a picnic, you had your feet on a seat, and when you weren't looking I took your measure. But for that pair of slippers I don't believe we'd ever been married." A young man sitting opposite with a girl, immediately removed his feet from the seat.

SNAPPY FACTS ABOUT RUBBER

Airplane new transport workers and supplies to South American rubber forests in hours. Until war started rubber on the "have not" list in the U. S., weeks and months were consumed in carrying supplies to the rubber tappers.

When one considers that for more than 20 years car and truck owners were encouraged to abuse their tires, through various forms of road hazard guarantees, it must be acknowledged that a laudable patriotism is being shown by them now in conserving their rubber supplies.

Remember the days when 30 pounds pressure per cross section inch was the standard inflation recommendation! Rough riding and flats were the order of the day.

A new highway has been constructed to the Marcapata gold mines in Peru. But rubber is the most important item being carried over it.
