For Freedom's Sake

**'43 VERSION
MOTHER HUBBARD**
She went to the butcher's
For spareribs and suet,
But found that some others
had beaten her tuet.
She said she would settle
For sausage and liver,
The butcher insisted
He had none to give.
She pleaded for pork chops...
For meatballs... for mutton
The butcher said, "Lady,
I just ain't got nuttin!"

production job in our history. And, like you, we've
lost many of the men who used to help us.Yet that's only part of the story. Every day, on
farm and factory, there's something new to test
the skill of those running the business. Not only get-
ting help, but—to mention a few others—rising costs,
making a fair profit, and setting aside reserves for a
rainy day. Essentially, those problems are the same
for farm and factory, though they may at times differ
in size.But it is that thing called "management," that
peculiarly American ability to think through problems
no matter how tough, that is helping to see us through
today.It is this skill in management that farmers and
businessmen have most in common, a skill which
insures the realization of our determination to
produce all that's needed for our country today, and,
tomorrow, to make a fair living through greater serv-
ice to our fellow Americans. General Electric Company,
