

It's the **WEIGHT**  
behind the fist...that counts!

COURTESY OF THE OREGON JOURNAL—

"United Nations forces, wherever they strike, are the fists. We at home in industry, in war work, in farming, in every activity of this total war... we are the shoulders and body behind the blow. No amount of hardness and efficiency in the fist itself avails, if the weight behind it is lacking."

**Jackson Co. 2nd in O. & C Timber Funds**

Timber cutting on a sustained yield basis on the 2,500,000 acres of O. & C. Railroad grant lands in 18 Western Oregon counties during the fiscal year ending June 30, 1943, not only supplied 415 million board feet of lumber for war and industrial purposes, but also resulted in payments of nearly \$1,000,000 in cash to the general fund of the counties in which the land is situated.

Mr. E. K. Peterson, Acting District Forester in charge of the Southern Oregon area, states that Jackson County, with an aggregate credit of \$169,052.53, ranked second among the recipients of O. & C. funds. Douglas County was first with \$253,709.88; Lane County third and Josephine County fourth.

The gross receipts of the O. & C. Administration are pooled, and then 50 per cent is divided among the counties according to the proportion of the total valuation of O. & C. lands that existed in each county in 1916—the year the lands reverted to the Department of the Interior from the Oregon and California (now Southern Pacific) Railroad. For the past five years the O. & C. has been making an additional payment of 25 per cent for back taxes accrued prior to 1937. The 1943 payments have liquidated this obligation. Henceforth, 25 per cent will accrue to the Federal Treasury. The remaining 25 per cent is available for administration of the O. & C. lands, including protection from fire which is contracted to the State of Oregon Forestry Department.

Forming one of the nation's largest testing grounds for scientific forest management, timber cutting as required by congressional mandate, is conducted on a sustained yield basis which stipulates that no more timber shall be cut each year than can be replaced by natural growth. Cutting is conducted in such a manner that recreational values are protected, timber growth is accelerated, and natural reforestation is obtained.

**Green Guard Services To Be Rewarded**

All members of the Oregon Green Guard are urged to send in their completed manuals and service records to Keep Oregon Green Headquarters, Salem, Oregon before October 10, 1943.

The contest for the 167 prizes is to be judged on the basis of summer services performed, new members enrolled, and on an essay written on the subject, "Why We Keep Oregon Green."

The Association is interested in knowing of the services performed by the Green Guards in our fire prevention campaign. Many members have a very good chance for a prize for their services alone. The essay is required for only the first two groups of prizes, and was added to help those people who have not found the opportunity to perform some outstanding feat. Green Guards, get busy! You have a chance to win.
