The Right of Way

By Ruth Taylor

The other day I stood at a busy New York street corner. Traffic was speeding by. It seemed like one of those hopeless snarls reminiscent of pre-gas rationing days. Suddenly I saw a little child at the curb—all alone. I started forward to pull him back, when the policeman saw him. He raised his hand and all traffic stopped while that little child crossed safely to his school on the other side of the street.

That is democracy—where a little child has the right of way! The strength of democratic government is that it is forward looking. Not only are all people alike in the eyes of the law, but all children are alike, to be protected, to be free from want and fear, to be tenderly cared for, to be counted neither as rich nor poor, black nor white, Jew, Catholic nor Protestant—but just as children, the hope of the nation, the future of the world.

Only in a free land are the rights of the child respected. And only where all children are safe is any child safe.

Our boys are not giving their lives for the safety of the things they have had, but for the safety of their children and their children to be, that they may live and grow strong into worthwhile manhood and womanhood.

Recently the editor of the Swanton Courier, up in the rockribbed state of Vermont, wrote me: "To preach the doctrine of democracy is something that can never be lacking in inspiration. Democracy is not only the American way of life, but must be the world way of life, or there will be no life for anybody. We will have to return to the law of the jungle if we do not put into practice our preaching of democracy. Our words must reduce themselves to action. This is really the test."

He was right. Democracy must prevail if the children of the future are to have their chance. We are fighting now for that. We are winning the fight overseas, but we still have a fight to win at home to translate our ideals into action.

We can do so if we think less of ourselves and more of those to follow, if we try to correct those things in our society which we condemn — prejudice, discrimination, group thinking. We give the children of our nation the right of way on our streets. Let us give them the right of way in our hearts by building for them a brave new world of brotherhood into which they may enter equipped, in turn, build a better world for their children and their children's children.

SEAMAN WILLITS NAMED

(Continued from page 1)
 that was the Boise after the battle that the author of "Pick Out the Biggest" refers to Bill Willits, "recently from a farm in Oregon," as one of the volunteers helping overworked corpsmen round up wounded and give them ambulance service. Three times as Willits deposited the wounded he pleaded, "Listen, Surge, if this man needs a blood transfusion I want to give it." The surgeon assured him that if need arose, his proffer would be accepted, but, privately, "If young Willits had been taken up on each of his offers he would have needed several transfusions himself; but the incident was typical of the spirit of the Boise men that night toward less fortunate shipmates.

Seaman Willits is still in the Navy, but not now on the Boise. While she was being repaired, Willits was assigned to a sub-chaser, where he now is on duty.

Morris' book describing the part of the Boise in the struggle for the Solomons is now in the local public library, according to Miss Cora Mason, librarian, and will soon be catalogued and available.
