

Japs in Manila Bay Bombed by Halsey's Torpedos

Navy Avenger torpedo bombers of Adm. William F. Halsey Jr.'s Third fleet caught a large Japanese merchant fleet napping in Manila bay and sank most of the ships, at the same time setting fire to many land installations. The attack lasted two days. Photos show the smoke rising from burning ships and land targets.

German Cities Show Results of Allied Might

Shelled and bombed buildings in the city of Stolberg, Germany, give some idea of the severity of the battle that took place between the Germans and Americans. (Left) German cities are beginning to show the results of war in the same way that other European countries have. (Right) Germans leave their homes which were shelled by the Nazis in an attempt to dislodge the strong foothold gained by American troops. The Americans won, but the city was laid in ruins.

Here's One for Anyone's Books

When Jack H. Leopold, Philadelphia, came home he found his Boston bull, who was an expectant mother, nursing these kittens. The door of the apartment was locked. Where "Tootsie" got the kittens is not known, but she has taken a very maternal interest in them.

Jack Dempsey Refereeing Bout

Coast Guard Comdr. Jack Dempsey, former ring champ, gives an added punch to a shipboard boxing show when he steps into the roped arena as referee. Dempsey is called upon almost daily to referee bouts in addition to his work as physical instructor. He has been busy developing a new string of world contenders.

Entertains Buddies

Not all the entertainment furnished the GI Joes comes from stage and screen stars. Corp. Viro Capezio, Philadelphia, does his share with accordion solos near Frambois, France, to keep up the morale of his overseas buddies. While hundreds of troopers have given their services to the USO to entertain the uniform forces, the visits to isolated units are rather rare. Most units have their own musical instruments and offer instructions in many cases.

Bullets for Axis

These are for the six .50-calibre machine guns used in the new U. S. army Eighth air force, P-51 Mustang fighters. The cartridge belts being carried represent the amount used by only one gun on a flight.

Washington, D. C.
JOE MARTIN BUSY
Republicans aren't saying much about it, but it is extremely noticeable that Joseph W. Martin, house minority leader, is not playing a prominent role in the national campaign. Inside fact is that he is too busy trying to get reelected in his own district, where he is opposed by Edmund P. Talbot, former mayor of Fall River and a former sheriff of the county. Talbot is of French-Canadian extraction, a Catholic and a Spanish War veteran.

In the 1942 election, the largest city in this congressional district, Fall River, voted as follows: Joe Martin received 11,765 votes, while the Democratic nominee, Lomax, received 17,334 votes. Therefore, while the whole district went Republican by 17,000, Fall River went Democratic by almost 6,000. Already there is a 41,000 registration in a city which cast only about 30,000 votes in 1942.

Outside of Fall River, if Martin can be kept down to a 12,000 lead, Democrats figure he can be licked. Martin led outside Fall River in 1942 by 22,000. But in many of the small towns there are powerful groups of Yankee liberal intellectuals who are close to the Willkie line. Talbot has made contact with the United Nations groups in this area and they are working enthusiastically for him.

BIGGER AND BETTER BOMB
Army officials haven't revealed whether they plan to use it yet, but they've already perfected and tested a new flying robomb, bigger and faster than anything the Nazis have ever seen.

Fact is, the new robomb was tested in the Middlewest last month, and whizzed through the air at more than 100 miles an hour during performance checks. The bomb has been developed with the aid of the Ford Motor company. Whether it is in production or not is a military secret.

Actually, during the last war, Ford produced a heavy robot bomb of his own, but couldn't find out how it would perform under front line conditions. It has never been revealed, but in the American part of World War I, one robomb was partially inspired by Gen. "Hap" Arnold, now commander of the U. S. army air corps. Arnold brought his idea to the Ford company, asked Ford to work out a motor to go with it. Ford rolled up his sleeves, soon produced a two-cylinder engine that worked well. Probably if World War I had lasted another six months, the robomb would have made its appearance 24 years earlier.

NOTE—The original American robomb is still preserved in the Ford laboratories in Michigan.

TEXAS THINKS TWICE
Before Roosevelt delivered his campaign speech at the teamster's dinner, he had a private session with Teamster Pres. Dan Tobin, in which they discussed the political situation, especially in Texas, the state that had been trying to make up its mind whether to have Roosevelt electors or non-Roosevelt electors on the ballot.

"Did you hear Bob Hannegan's story about Texas, Mr. President?" asked Tobin. "With those electors coming and going he says it's 'On again, off again, gone again, Hannegan.'"

Roosevelt observed that he had done everything he could about Texas, but didn't know what was the matter with the folks down there. "There's a fellow down there named Garner who doesn't love you much," replied Tobin, "but I don't think he's going to vote against the ticket. And if Texas does defeat you, they'll lose all the juiciest jobs in congress, for the best committee chairmanships from the speaker down are chiefly held by Texans. I don't think they'll cut off their noses to spite their faces."

Next day the Texas Supreme court voted to put the pro-Roosevelt electors on the ticket.

JAP WAR MAJOR JOB
Administration leaders aren't talking about it but they are privately concerned about America's reaction to V-E day. They not only fear a possible slowdown of production and fighting spirit, but also an unrestrained celebration on Armistice day.

Noisy street celebrations, widespread drinking and any feeling that the war is over will be most unpleasant for the millions of families who have sons in the Pacific still faced with the big job of defeating stubborn Japs.

There was strong sentiment within OWI to suggest announcements that unrestrained irresponsible celebration would be out of place, but Elmer Davis finally decided against it. No agency has the right to dictate to the people how they should receive the news, Davis feels. At the same time, OWI will propose that radio and press carry potent reminders that the war is not over and that we are still faced with a major conflict in the Pacific. OWI will point out that war effort must replace V-E celebrations.

CLASSIFIED DEPARTMENT

HELP WANTED
Persons now engaged in essential industry will not apply without statement of availability from their local United States Employment Service.

OFFICE CLERKS and Salesgirls Needed.
Establish your post-war future now!
CHARLES F. BERG
613 S. W. Broadway, Portland, Oregon.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act. Nature intended—all to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!
DOAN'S PILLS
