from the  
**General Electric annual report**

**EMPLOYEE EARNINGS UP.** The average G-E employee earned \$2,772 in 1944. Employees also shared \$234,000 in Suggestion Awards. Top award was \$2,000 for an idea that speeded production of G-E gun control for the B-29. G-E employee suggestions aid the war effort.

**FASTEST JET PLANE**

**PRODUCTION INCREASED.** For the fourth successive year, General Electric turned out record quantities of war goods despite an average of 2 per cent fewer employees. G. E. produced over 8,000,000 horsepower of ship propulsion turbines for the Navy in 1944.

**NEW DEVELOPMENTS.** G-E research and engineering played a part in such recent developments as radar, silicones, jet propulsion, rocket weapons, remote gun control for the B-29 "Superfortress," the A-26 "Invader," and the P-61 "Black Widow."

**4735 WAR VETERANS HIRED.** By the year's end 4735 returned service men and women were working at plants of General Electric and affiliated companies. 2996 were former G-E employees. On December 31, 1944, a total of 50,228 employees of General Electric and affiliates had entered the armed services.
