Physician and Surgeon  
N. E. Cor. E. Burnside and Grand Ave  
Telephone EAst 3918, Portland 14, Oregon

### Grinding Grain

Grinding grain for dairy cows is a recommended practice. Greater milk production, especially with high producing cows, was obtained in all of the experiments at the Texas agricultural station when ground grains were fed. Most of this greater production appeared to be due to the greater amount of ground grain consumed. Even though more grain was eaten, the cows getting ground feed produced enough additional milk to justify the practice.

### Climate Factor

Climate in which the seed is grown has a lot to do with the hardness of alfalfa, according to U. S. department of agriculture experiments. Grown for two generations in a mild climate, a hardy alfalfa will "go soft" and its seed will produce many plants that cannot stand cold weather. Grown for just one generation in a mild climate, its hardness has been found unaffected.

### Top With Chicken

Try savory biscuits topped with creamed chicken. Adding one-half teaspoon poultry seasoning and one-fourth teaspoon curry powder to the flour mixture of a standard baking powder biscuit recipe offers something new and mighty good to accompany the tempting flavor of creamed chicken.

### For Quick Drying

To hustle drying after you've wiped up the kitchen or bath, place a fan in the doorway, aiming it at the floor. In a jiffy the floor is ready to wax. But remember not to touch anything electrical when hands or body are wet from water or excessive perspiration, or if shoes are moist.

### Covered With Fat

The tubercule bacillus, or germ, like the leprosy bacillus, is covered with a layer of fat, so that most drugs, such as the sulfa drugs, have no effect upon it. However, efforts are being made to develop sulfa drugs that will aid in the treatment of tuberculosis.

### Clean Chimney

A good house-cleaning job includes cleaning the chimney and installing spark arresters, making sure that all heating equipment is in good repair, and replacing weatherworn wood shingles with fire resistant roofing.
