## HOUSEHOLD HINTS

To remove fresh glue stains wash them gently in warm water. If the stains are old, sponge them with vinegar applied with a soft cloth. When the stain disappears rinse in clear, warm water.

To freshen vegetables, soak them for an hour in cold water to which has been added the juice of a lemon.

A kitchen papered with horizontal stripes appears larger than it really is.

Give the oilcloth on your kitchen table a coat of paste wax and then polish. Protects it from food stain.

Spice bags give a faint, enticing flavor to certain soups and stews. To make one, mix three sprigs of parsley, six whole cloves, one bay leaf and a little thyme, and tie them loosely in a small square of white cheesecloth. Drop the bag into the cooking mixture.

## SNAPPY FACTS about RUBBER

Now it can be told: Workers proudly tell of their sabotage work when rubber plants in France were under Nazi control. They spread soapstone on the plies as they built a tire. Finished product looked perfect, but in use plies would break, leaving the Nazis flat.

"Rubber made in the U. S. A." has been developed to such a high degree that the war-born synthetic rubber industry will probably continue long after the war.

As of December 31, 1944, the average age of all passenger cars on the road was seven years.

CREATING **NEW WEALTH** TO ORDER

Advertising creates new wealth by showing people new and better ways of living, and as it creates new wealth it contributes to the prosperity of everyone touched by the flow of money which is set up. In this way, don't you see, advertising is a social force which is working in the interest of every one of us every day of the year, bringing us new wealth to use and enjoy.
