Long Distance calls are still at an all-time high on the Pacific Coast

But we're working night and day to bring service back to normal

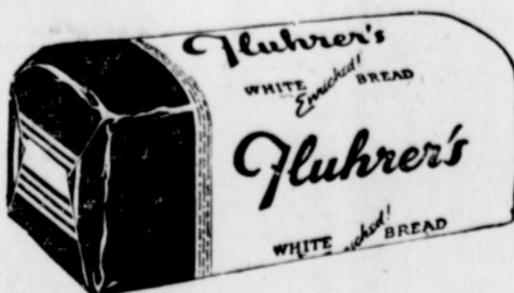

Here on the Pacific Coast, Long Distance telephone calls are still at the same high level they reached just before Japan surrendered.

That is why... even though we are already making headway in bringing service back to prewar standards... there may still be a delay before we can complete your Long Distance call, or the operator may ask you to limit it to five minutes. We want you to know, however, that we're doing everything possible to hurry the day when we'll again be able to handle promptly any Long Distance call you want to make... anywhere.
