**MUTT AND JEFF**

JUST GO UP AND TELL SPIKE YOU CAME TO COLLECT THE THREE BUCKS HE OWES ME! I'D GO MYSELF BUT HE DOESN'T LIKE ME!

WHAT DID HE SAY?

NOTHIN' WHEN I TOLD HIM WHO I WAS HE THREW ME DOWN THE STAIRS!

YOU GO RIGHT BACK UP AGAIN! HE DON'T SCARE ME!

DANG IT! GO UP AGAIN AND INSIST YOU WANT MY THREE BUCKS!

TWO BLACK EYES, THREE TEETH OUT!

NO CAN DO! THIS PICTURE SHE ENDS HERE!

WELL?

HE PUNCHED ME IN THE NOSE AND GAVE ME A BLACK EYE!

HE CAN'T DO THAT TO ME! I'LL SHOW HIM! YOU KEEP GOING BACK UNTIL HE PAYS ME!

**20 ACRES** for sale or rent with or without stock, machinery. **Box 97, Kennewick, Washington.**

**Immense Cost of Fires**  
Losses from fire, "the scarlet terror," cost Americans during the first six months of 1945 more than eight times as much as they spent all last year on the legislative branch of their government, which includes congress, the botanical gardens, the library of congress and the government printing office.

**Kills Slowly**  
In demonstrations of spraying DDT in dairy barns, entomologists have found that the insecticide remained effective for six weeks to three months but killed the flies slowly. Flies receive a lethal dose in crawling across sprayed areas.

**Quiet Wanted**  
Minneapolis city council is to consider requiring trucks and motorcycles to equip with "mufflers that muffle." It is estimated that city hall business is held up and delayed a total of one to two hours every day because of noisy motors.

**Sugar Cane**  
When a sugar plantation is on fire that need not mean a total crop loss. On some sugar cane plantations the crop is burned before it is harvested. This removes heavy useless leaves but does not harm the juice-filled stalks.

**Big Eyes**  
The whale has the largest eye among animals, with an eye in some species as big as a grapefruit. On land the largest eye is found in the ostrich. Largest eye in any land mammal is that of a horse.

**Hog Sanitation Pays**  
Studies have shown that a pig weighs 23 pounds more at four months of age when raised under the sanitation system than a pig raised in an old hog lot.

**Optic Messages**  
Messages from the eye to the brain travel over the optic nerve at the rate of about 200 feet per second. The visual center is located at the back of the brain.

**Oldest Experimental Plots**  
The Morrow plots on the campus of the University of Illinois are America's oldest soil experiment field. They were established in 1876.

**Shortening Recipe**  
Seven-eighths of a cup of lard, oils, or home-rendered fats provides the same shortening power as one cup of butter or margarine.

**Digestive Process**  
Food in process of digestion is moved through the stomach and intestines by wavelike contractions of these organs.

**Heart Disease**  
Heart disease causes more deaths today than any other disease. The reason for this is that people are living longer.
