LOOK to Greyhound first for

EXPERT DRIVERS

The Greyhound bus driver has become a symbol of skill and service in motorized transportation. With him you ride secure in the knowledge that behind the wheel is a highly trained expert, one of the world's finest drivers.

Both training and tradition give the Greyhound driver well-deserved pride in his ability. New drivers, regardless of previous experience, receive a full month or more of intensive special training before taking over on their own. They must pass

certain physical and mental tests comparable to those of the Army Air Corps. And now most of Greyhound's former experienced drivers are back at the wheel after serving in the Armed Forces.

Remember, too, that these Greyhound experts are more than bus drivers... they are equally famed for their friendly, eager attention to every detail of service that makes traveling by Greyhound more than just a way to go places.
