Lithian Bubbles

Dirty backyards are unsightly and contribute indirectly to ill health. Accumulations of organic filth breed flies and thus may carry disease. We judge people largely by the conditions of their home. If the house is dirty and untidy, we think that that is not a pleasant place to be in and that the family is slovenly. It is just so with a town and we all want our town to be one that we may be proud of. A good citizen will help the city government to keep the streets clean by never scattering refuse.

CHARLES L. SKEETERS
RICHARD O. SKEETERS

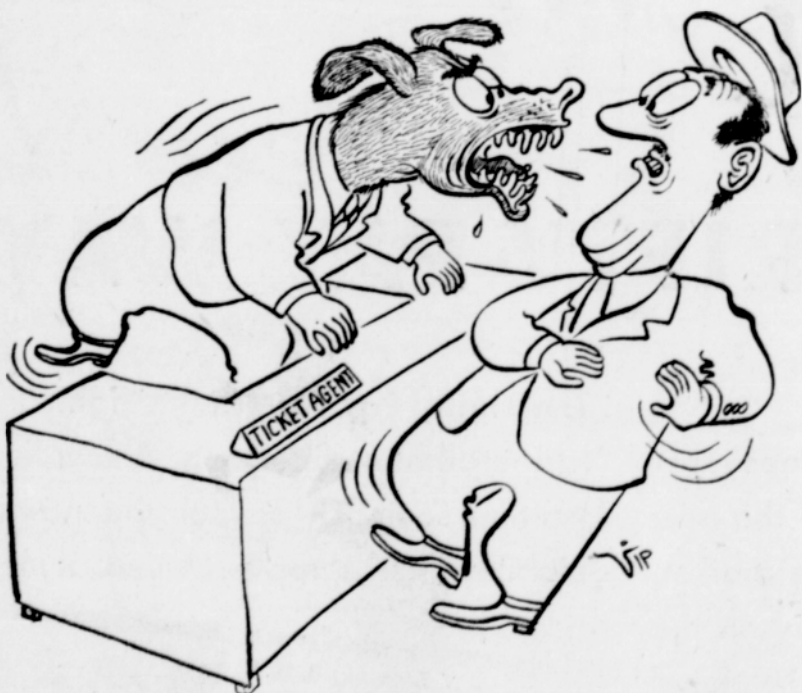

Whatta ya mean, friendly ?

Just saying a thing is so doesn't make it so.

We know that.

Occasionally somebody will question our right to call ourselves the friendly Southern Pacific.

"How can you say that," he'll ask, "when one of your ticket agents practically barked at me once?"

Well, one swallow doesn't make a summer, and when you have 90,000 people running a railroad, you're bound to have some quick tempers and cases of stomach ulcers among them.

We wouldn't be human if we didn't slip up once in a while, even though we try very hard to prevent slips.

We call ourselves a friendly railroad because you seldom see a Southern Pacific engineer who doesn't wave at folks, or a conductor who doesn't like to pat children on the head and give them a fist-full of discarded seat checks to play with. Or a Southern Pacific man or woman who won't go out of his or her way to perform an act of human kindness above and beyond the call of duty.

Incidentally, if you're planning a trip anywhere, our service is much faster and better, even, than it was before the war. We'll be glad to help you plan your trip—but be sure you know well in advance.
