Letter . . .

TO THE EDITOR

The following letter was received from Herb Fischborn, Ashland chairman of the Foundation for Infantile Paralysis.

Dear Sir:
I shall appreciate it if you will be kind enough to publish the following appeal to the citizens of this community in the interest of the Infantile Paralysis Fund Campaign.

Last week the familiar wishing wells of the Infantile Paralysis Foundation again made their appearance on the counters of our stores, business houses, and in the local bank and post office.

The vigorous, never ending campaign against Infantile Paralysis needs your help. Your change dropped into the wishing wells accomplishes a great deal in helping to battle polio. Polio strikes viciously and without warning. It respects no age, creed or religion. Epidemics of Infantile Paralysis may hit any American community at any time. In such cases the National Foundation of Infantile Paralysis must come to the aid of such stricken communities, as it comes to the aid of individuals. It has often been stated that 50% of all any community gives stays in that community. But beyond that, the other 50% and more - the monies collected from other communities - may be returned to us, should conditions in our district necessitate such help. And all monies turned over to the National Foundation benefit all of us indirectly at all times, because a large part of the collection is used for research and equipment, for new ways to attack, delay and defeat the Mighty Crippler. Such research and equipment have made possible quicker and more complete recovery for the victims of Infantile Paralysis.

Your contributions made this possible. The fight against polio must go on. When you step into your favorite store, your bank or post office, remember that your help is needed in this fight. JOIN THE MARCH OF DIMES.

Herb Fischborn
