Add eyetems: A refreshing sight to these old eyes was young JERRY MILLER, son of famed softball umpire, KEN MILLER, leading the city band last Thursday night. JERRY, who is 3½ years old, directed every piece, never missing a downbeat. JERRY has his own podium before the audience and he usually directs every Thursday evening. Sometimes he tires, if it's a long concert, and doesn't finish the last few numbers. But last Thrusday he was in fine fettle and gave a magnificent performance. gave a magnificent performance. JERRY doesn't imitate city band director GLENN MATHEWS, he leads with his own particular motions, both hands, and his wrist action is very correct. Our vote is for Jerry. We'd like to see him really direct the band some evening. He's worked hard cought at it. enought at it.
