It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.  
You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

QUESTION: Please tell me how to remove old paint from "white limed oak" finish on a dining set.

ANSWER: Soften the old paint with paint remover, then take it off with a hand scraper and steel wool. Carefully avoid scratching or gouging the wood. Follow by cleaning off every trace of remover with benzine or turpentine. If the color of the wood is what you wish, you can refinish with quick-drying varnish or in some other way.

QUESTION: What can I do in the way of refinishing a brass bed?

ANSWER: If you wish to paint the bed, go all over the metal with sandpaper to roughen it slightly, wipe it with turpentine and then apply one or two coats of enamel undercoater. Finish with a coat of enamel.

QUESTION: We have to put a new floor down in our basement. Which is better, plank or concrete?

ANSWER: Do not use boards because they will rot in time. Have a good waterproof, concrete floor laid by a mason contractor.

QUESTION: What can I use to wash my furniture?

ANSWER: Clear turpentine is often used to clean the woodwork of furniture followed by polishing with a coat of paste wax applied thinly and well rubbed, when dry.
