That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Submarine Principle First Used by Caddis Fly

The submarine principle was used millions of years ago by an insect known as the caddis fly. The young of certain caddis flies build a "submarine" of selected materials found on the bed of a stream or lake, binding them together with silk. By attaching or detaching bubbles of air to their cases and thereby altering the specific gravity, the flies are able to rise or submerge in water.
