### A Lecture

### Christian Science

Entitled  
Christian Science: The Comforting Law of God by

Helen Appleton, C. S.

Of Boston, Massachusetts  
Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

The lecturer spoke substantially as follows:

Today, the world as never before is looking hopefully to law for the settlement of all its difficulties.

God is the only lawgiver. Christian Sciences accept the word of the Bible as their guide and inspiration. Mary Baker Eddy the Discoverer and Founder of Christian Science, in one of her writings (The First Church of Christ, Scientist, and Miscellany, p. 295) states: "The Bible is our sea-beaten rock... It stands the storm. It engages the attention and enriches the being of all men." It is in the Bible that we first hear God spoken of as "lawgiver."

Throughout the Old Testament the coming of a Messiah had been prophesied. Christian Science teaches that Christ is the divine nature of God which is humanly perceived and manifested in right ideas and actions. Jesus, more than all others before or after his time, embodied this nature of God, or Christliness.

Jesus referred to God as Spirit and as Truth. He taught that God is divine Life and stressed that God is divine Love. Jesus saw man as God made him, perfect. Who and what is this perfect man that Jesus saw, this true concept of man? He is the man spoken of in the first chapter of Genesis as made in the image and likeness of God.

Jesus saw that evil is never a reality. Its claim to reality is but the unreliable testimony of the physical senses.

Do you ask how we are to unsee and disbelieve all the evil

that seems so rampant in the world today? Surely not by ignoring the error, but by facing it, facing it with the truth of God's omnipresence and omnipotence, and of man's eternal, unbreakable union with God, good.

Mary Baker Eddy had been brought up from earliest childhood to believe in the value and the effectiveness of prayer.

Mrs. Eddy's faith in God's presence and power grew with the years as she became more and more certain, through study and experience, that materiality had nothing to offer, either as a curative agent or towards spiritual salvation.

She wrote "Science and Health with Key to the Scriptures," thereby sharing with the world her faith and proof of God's omnipotent and ever-present love.

Christian Science has made understandable that all healing is the result of the operation of divine law in human consciousness. Divine law is every operative and ever available to all.

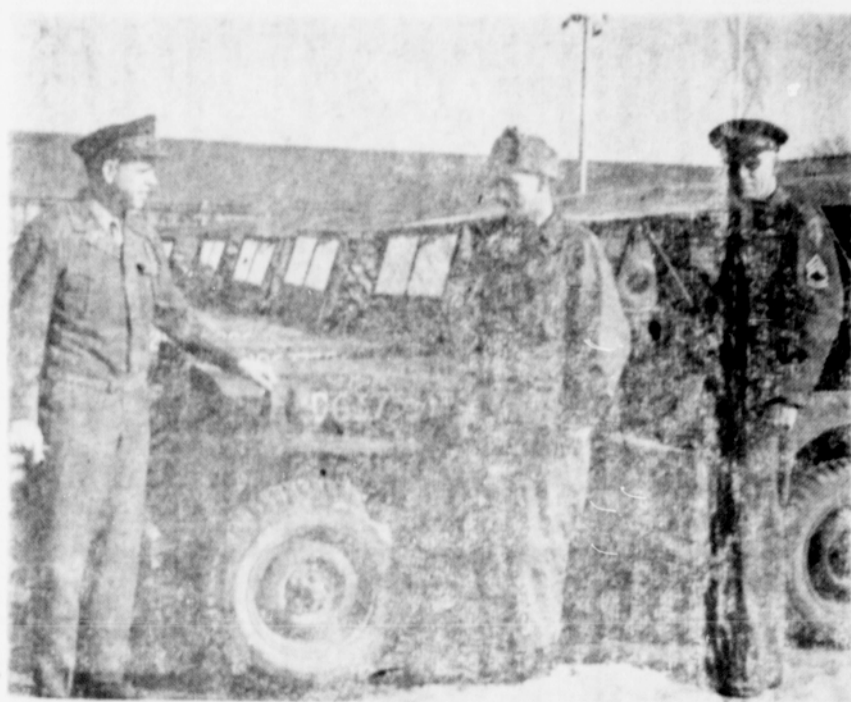

The important thing for each of us to ask himself is, "What am I thinking, thinking about myself, about others, and about the world in general?" What we are thinking is manifesting itself as our experiences. What do you think would happen if all nations and peoples suddenly dropped their attitudes of distrust, fear, hatred, greed, jealousy, selfish and stubborn aims, and turned wholeheartedly to divine Love for guidance, for inspiration and wisdom? The answer is obvious. Peace, harmony, brotherly love, and good will would reign.

Because God, Mind, is good, good health is a spiritual quality of ever present Mind. Health is therefore a quality of man, God's image and likeness.

Good health belongs to man universally. Man is a unit, a whole idea. Man is complete, reflecting all the qualities of Mind. He is not part well and part sick. Such argument stems directly from materiality. Only by spirituality can it be eliminated.

May we become aware that "the law of the Spirit of life in Christ Jesus hath made me free from the law of sin and death." (Rom. 8:2).
