WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Delicious Chewing-Gum Laxative REMOVES WASTE NOT GOOD FOOD
When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT. Doctors say many other laxatives, taken in large doses, start their "flushing" action too soon... right in the stomach where they often flush away nourishing food you need for pep and energy! You feel weak, tired. But gentle FEEN-A-MINT is different! Taken as recommended, it works chiefly in the lower bowel—removes only waste, not good food! You avoid that weak feeling—you feel fine, full of life! Get FEEN-A-MINT, 25¢, 50¢, or only 10¢!

FEEN-A-MINT
FAMOUS CHEWING-GUM LAXATIVE

Effective Cough Syrup, Mixed at Home for Economy

No Cooking. No Work. Real Saving. Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll swear by it. Make a syrup with 2 cups granulated sugar and one cup water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup. Now put 2½ ounces of Pinex in a pint bottle, and fill up with your syrup. This makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine. And you'll say it's really excellent for quick action. You can feel it take hold swiftly. It loosens phlegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get restful sleep. Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations. Money refunded if not pleased in every way. FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

Planetarium

Two of our largest planetariums, in which movements of the stars are reproduced with startling realism, have domes of stainless steel on which star images are projected.

Cuts Fever in Polio

Aureomycin, one of the new antibiotic drugs, should be carefully tested in a long series of cases of infantile paralysis because preliminary tests indicate a probable beneficial influence on the disease, two Waukegan physicians report. The report, made by Dr. Erich Weiss and Dr. Burton J. Winston of St. Therese Hospital, Waukegan, Ill., was published in the official organ of the Illinois state medical society. Their main finding was that the average duration of the fever period of the disease was only 2.3 days in patients who received two grams or more of the drug per day. Previous studies had shown an average duration of 4.8 days without aureomycin.

Korean Superstition

So deep-rooted is the average Korean's belief in spirits that the first free Korean election ever held was postponed one day from the date originally set—May 9, 1948—because of an eclipse of the sun. That eclipse was observed by a National Geographic society team from a site near Chonan, the town half way between Seoul and Taejon that figured in recent bitter fighting.

Webworm Control

Toxaphene applied as a dust or spray at the rate of 1½ to 2 pounds actual chemical per acre will control beet webworms.

Color, Ahoy!
Yacht owners, this year, have gone in for color in a big way. Veering away from the restrained white or black topsides, such colors as golden yellow, medium orange, greens, blues, buffs, browns, grays and reds have proved popular.
Mothers Up in Arms When Kids Launch Firefly Hunt
OAK RIDGE, Tenn.—Oak Ridge mothers are up in arms. It is all because their offspring have launched into a hunt for lightning bugs—at 25 cents per 100.
Young Oak Ridge, being economy minded, was immediately interested in the offer of Dr. Bernard L. Strehler to buy 100,000 fireflies at 25 cents per hundred.
Dr. Strehler, formerly of John Hopkins University, wants them so he can study their tail lights and find out how their lighting system works.
At this point Strehler suggested the youngsters find a cool place to store the bugs until they are collected. He suggested the refrigerator.
That made the mothers storm. They called the newspaper where the bugs are to be delivered. Refrigerators all over the town were beginning to overflow with fireflies within a few days.
The scientist said he hoped to learn the scientific principle which caused the energy which produces the firefly's tail light.
Avoided Potatoes
Devout Scottish folk avoided potatoes because they were not specifically mentioned in the Bible. Hunger in the 1740's helped them overlook their scruples.
