

### Merrill Woman Heads State Home Ec Group

Mrs. Iva Kilpatrick of Merrill was elected president of the Oregon Home Economics Extension Council at its annual meeting recently at Oregon State college.

Other new officers are Mrs. Leslie Kribs, Bend, first vice-president; Mrs. Guy Shumway, McMinnville, second vice-president; Mrs. Claude Sprague, Corvallis, secretary; Mrs. Harold Riley, Seio, treasurer; and Mrs. James Beeman, Umatilla, historian.

Five new district directors are Mrs. Oliver Sargent, Salem; Mrs. Norman Lunde, Troutdale; Mrs. Percy Cook, Klamath Falls; Mrs. Dorothy Kopacz, Hermiton; and Mrs. Jean Davenport, Coquille.

**Dream Comes True**  
The OHE council, representing 13,000 homemakers, saw a 5-year-old dream come true at the conference. The council's \$45,000 goal for a cooperative living unit for college girls went "over the top" when Mrs. Norman Lunde, Azalea House chairman, presented a \$10,000 check to Mrs. Mabel Mack, state extension agent, and she in turn gave the check to Dr. A. L. Strand, president of the college.

This sum was raised among the extension unit members, farm organizations, and business concerns throughout Oregon by a state board of trustees, headed by Mrs. Lunde and county Azalea House Fund chairmen. Mrs. Mack served as adviser.

Dr. Strand said Azalea House will be built by September 1952. It will accommodate about 50 girls. County extension committees may select one or more girls from their counties to live in the house. The girls will be chosen on scholarship, leadership, and character, with preference given to 4-H'ers.

### Rural Church Institute to Hold Meeting

Cultivating church and community cooperation will be featured through six panel discussions at the 1951 Leadership Institute for Town and Country churches at Oregon State college July 10 to 13, according to Dr. E. W. Warrington, professor of religion and philosophy at OSC and institute co-chairman.

Panel discussions will center on church architecture, landscaping of the rural church, religious leadership, farm organization cooperation, improving church and community youth programs, school cooperation and contributions of various church and community relationships.

**Lay Leaders Invited**

The institute is intended for all lay as well as ministerial leaders interested in raising the spiritual life of Oregon's rural communities.

Rev. Martin Eidbo of North Richland, Wash., representative of the Home Missions Council of North America, and Rev. George Murphy of John Day, representing the Archdiocese of Portland in Oregon, have been scheduled as the main speakers at the four-day meet.

The institute, sponsored jointly by three church and four farm groups and OSC, will also feature a series of tours, including the OSC agricultural experiment station farms, home management houses, nursery school and research projects, and student religious centers.

### Talent Community Club Entertains

The Talent Community club's annual guest day was held yesterday with 49 guests present.

A program was enjoyed by the guests and members, given by the Camp Fire girls under the direction of Mrs. Alice Burnett.

Mrs. E. A. Roberson was honored with a fresh bouquet of flowers as the oldest guest present.

All guests present were given corsages and all of the older ladies received flowers.

Ice Cream, cake and coffee were served to all attending.

### Nine Promotions Given at SOC

Nine college promotions and one appointment have been approved by the state board of higher education at its Portland meeting last Tuesday.

Promoted at Southern Oregon college are Arthur Kreisman, associate professor of English; Eugene Bowman, associate professor of mathematics; John McAulay, associate professor of education; Leon Mulling, associate professor of speech; John Schulz, associate professor of psychology.

Oscar Bjorlie, assistant professor of music; Donald MacDougall, assistant professor of social science; Alwin Miller, assistant professor of secretarial science and Dorothea Bushnell, assistant professor of education.

The one appointment is Seymour Fowler, assistant professor of science.

Resignations accepted by the board were Faytene Zumwalt, instructor; Arthur Reneau, instructor; Francis Silver, instructor in secretarial science; Phyllis McRae, instructor in training school and Marjorie Priger, instructor in the training school.

### STATE OFFERS MILK SAFETY

Milk consumers of Jackson county who are uncertain as to the legal status of any raw milk supply being offered for sale for human consumption are advised to contact E. P. Black, P. O. Box 415, Rogue River, of the state department of agriculture.

The Oregon fluid milk act requires dairies to meet certain sanitation and disease-free herd requirements and to be licensed before offering such milk for sale.

The consumer who obtains milk from an unsuspected and unlicensed source, the state agriculture department says, is ignoring the safeguards established by law to protect the public. Milk by its very nature, the department adds, is peculiarly susceptible to contamination and adulteration.

Diseases such as undulant fever (Bang's disease), tuberculosis, typhoid, diphtheria and scarlet fever may be transmitted by milk. The department advises consumers to play it safe by getting only inspected and licensed milk.

The state milk law says grade A raw milk or pasteurized milk shall contain not more than 20,000 bacteria per milliliter. Both the producing farms and milk plants are required to be inspected regularly.

Samples of all raw and pasteurized milk are collected at least once every six weeks and are rushed to the state laboratory at Salem for bacteria analysis.

### Our Theatre

Dr. Margery Bailey, one of the leading Shakespearean authorities in the nation and academic advisor to the festival, will deliver four lectures today and Friday, 1 and 7 p.m., to the public and play casts at the Elizabethan theatre.

This will be of special interest to the public because any of Dr. Bailey's scholarly dissertations will help the layman understand the complexity of Shakespeare's plots and staging—all of which will lead to better play appreciation.

**Theatre-goers** will have things pretty plush when the installation is completed on the new public lounges underneath the dressing-rooms on the park side of the stage.

A cast picnic is scheduled for this afternoon at 5:15 under the sponsorship of the board of directors of the festival. Everyone is invited to attend the picnic and to meet the cast for the 1951 productions.

The cast, tentatively chosen, and almost complete, will include the following: Clara Daniels, Medford, as Regan in "King Lear" and Lady Northumberland in "Henry IV, part two"; Jerry MacDougall, Medford, will play Lord Mowbray in "Henry" and Bill Patton, Medford, will play several short parts and serve as festival electrician and lighting expert.

**Graham Plays Lear**

Richard Graham will play the choice part of Lear and direct "Twelfth Night." Addyse Lane, Salem, will act Mrs. Quickley in "Henry" and will also play Juliet in "Measure for Measure." John Brebner, Middlesex, England, will act Prince Hal in "Henry."

Herb Greer, Fresno, Cal., will offer his version of the Fool in "Lear," and Producing-Director Angus Bowmer will act Sir Toby Belch in "Henry." Falstaff, in the latter play, will be portrayed by David Victor of Chicago, Ill.

Barbara Huggins, Houston, Tex., will portray Mariana in MM, Viola in TN, and Goneril in "Lear." Ross Hogue, New York, will be the Duke of Vienna in MM and the King of France in "Lear."

**Hanson is Malvolio**  
Ray Curtis, Chico, Cal., will be Sir Andrew Aguecheek in TN, and Jean Leonard, Spokane, Wash., will be Cordelia in "Lear." Philip Hanson of the University of Illinois will play Malvolio in TN and his wife, Suzanne LaMarre Hanson, Ashland and the University of Illinois, will portray Olivia.

Anne Gilbert Eckstein, Beverly Hills, Cal., will be the Doll in "Henry" and Elizabeth Watterberger, Palo Alto, Cal., will be Isabella in MM.

Bill Dawkins, executive-secretary of the festival, says that casting is as yet not complete,

### VALUE OF HONEY BEES IN POLLINATION TOLD BY CHAMBER SPEAKER

George Nichols, local apiarist and bee keeping authority, was guest speaker at the Chamber of Commerce meeting held at the Elks dining room Tuesday noon.

He described the importance of insects, including the honey bee, in the pollination of farm crops and pointed out that without these "natural pollinizers" diversified agriculture would be impossible. He explained that the honey bee is highly important to agriculture since it is the only insect that can be moved from place to place for pollination purposes.

Mr. Nichols was introduced by Henry Galey, program chairman.

### TALENT LADY LIONS INSTALL OFFICERS TONIGHT

The Talent Lady Lions will install their officers for the coming year at the Ashland Elks club this evening.

Nona McAbee will be installed president; Virginia Gleim, as vice-president; Marjorie Gleim, secretary; Eleanor Burdell, treasurer; and Mae Culver, lion tamer.

### TALENT FRIENDS CHURCH IRWIN P. ALGER, PASTOR

Sunday School 10:00. Worship Hour 11:00. Young People's Prayer Fellowship, 6:00 p.m. Christian Endeavor 7:00. Evangelistic Service 8:00.

except for the major roles.

Rehearsals are every afternoon and evening with the public cordially invited to attend and see what goes on behind the finished production.

Two aspiring thespians with special fellowships have arrived in Ashland for the August festival at the Shakespearean theatre.

Miss Norma Leigh of Cedar City, Utah, and a graduate student at Stanford is here on a Bell fellowship. She has registered at the college and will work on the costumes and sets.

**Make-up Specialist**  
Morgan Brody, Hollywood radio technician, is here on a Milton fellowship and will be active in stage work, acting, and his specialty, make-up.

In recent months, Brody has been playing in community theatres in the San Francisco peninsula in such groups as the El Camino players, Palo Alto Players and San Mateo Players.

### Full Employment

REGULAR and gainful employment and occupational security constitute a practical goal. And humanity constantly asks why it is not universally attained.

Is not one reason because mankind measures resources by its own restricted, material standards? Ordinary unemployment insurance can bring only temporary relief. It does not heal the basic condition.

Nothing can interfere with the operation of God's harmonious law of creation. Nothing can hinder Love from abundantly manifesting itself. Nothing can change perfection. Christ Jesus never doubted the Father's loving provision. He points out that even the sparrows are cared for; the ravens are fed. He assures us (Luke 12:32), "Fear not, little flock; for it is your Father's good pleasure to give you the kingdom."

The Father's good pleasure is expressing itself in purposeful, beautiful, and beneficent ideas. The business or employment of God's man is reflecting Him, expressing intelligence and perfection. Man is constantly employed in reflecting the tireless activity of Mind, the ceaseless abundance of Life, the limitless affluence of Love. This is humanly evident in right activity, useful service, and assured supply.

Jesus has given us the rule for demonstrating employment and the supply of every need. He said (Matthew 6:33), "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." Indecision, misgiving, and confusion are not characteristic of God's kingdom.

Confidence, alertness, integrity, and poise provide genuine assurance and employment insurance. Mary Baker Eddy, the Discoverer and Founder of Christian Science, says (Miscellaneous Writings, p. 307), "God gives you His spiritual ideas, and in turn, they give you daily supplies."

God continuously gives His unqualified confirmation of employment. The Scriptures assure us (Exodus 23:20), "Behold, I send an Angel before thee, to keep thee in the way, and to bring thee into the place which I have prepared." Accepting God's promise and providence, we can follow His angels—thoughts of inspiration—to that fruitful occupation at the place He has already prepared for us, where no idleness exists. Under God's government man is protected, productive, and fully employed.—The Christian Science Monitor.

More than 80 per cent of all accidents last year on our streets and highways involved vehicles going straight.

### Church Notices

#### FIRST BAPTIST CHURCH

Corner First and Hargadine. William H. Tillman, pastor. "Where Souls are Fed and Hearts Made Glad."

How to make good telephone service even better. . .

**Faster Long Distance service** Maybe you never if you place your call like this thought of it this way, but you can help your Long Distance operator save your time if you give her your call like this: First, the name of the town you're calling. Then the telephone number. And finally the name of the person you're calling—if it's a person call. You'll find this tip particularly helpful these days when Long Distance lines are busy carrying the calls that are aiding our military forces and our industries to build the nation's strength.

Want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" in the distant town to get the number you're calling.

Have you started keeping a handy out-of-town number list? You'll find you can save considerable time in completing Long Distance calls if you give the operator the number you want rather than just the name and address. That way, you see, you won't have to wait while she calls "Information" in the distant town to get the number you're calling.
