It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE—NOT GOOD FOOD

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon, right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out. But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes mostly waste, not good food! You avoid that typical weak, tired, run-down feeling. Use FEEN-A-MINT and feel your "peppy," energetic self—full of life! Get FEEN-A-MINT! No increase in price—still 25c, 50c or only 10c.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headaches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations, tired, run-down feeling. Use FEEN-A-MINT and feel your "peppy," energetic self—full of life! Get FEEN-A-MINT! No increase in price—still 25c, 50c or only 10c.

Colonial Colors

In early Colonial houses, white paint was the only color used for woodwork, except for the real mahogany which was used in handrails and, occasionally, for stair balusters. The wide board floors were often painted red or squash color.

Rice Fields

Flooding a rice field requires about six gallons of water per minute per acre. In other words, a well or other irrigation system producing 600 gallons of water per minute will irrigate 100 acres of rice. When the rice is ready to harvest, the fields are drained so that the harvesting machinery can move in. An important trend in United States rice farming has been the shift from the old-fashioned binder-thresher method of harvest to the modern, high-speed combine-drier method.

Driving Blind

Nearly one half of the 32,000 deaths that occur each year in traffic accidents are caused mainly by poor visibility. According to a recent survey, in 1950 the worst time for traffic deaths was from six to seven P.M., while the worst time for injuries was from four to five P.M. Fifty-seven per cent of the fatal accidents and 42 per cent of the injury accidents happened in the dark.
