### JUST OFFER

**The Eccentric**  
A man was carrying a grandfather's clock down a crowded main street to a repair shop. As the clock limited his vision, he unintentionally collided with a woman, knocking her down. After collecting her composure and packages, the woman struggled to her feet and scathingly inquired: "Why don't you carry a wrist watch like everybody else?"

### Up and Down

The elevator operators at the Capitol in Washington are given to brooding over the world's troubles. "How's business?" a passenger asked one of these up-and-down philosophers. The operator looked at him moodily. "I'm not a man," he said despondently. "I'm a yo-yo."

### Beginner

Want ad in a Pennsylvania paper: "Woman, 21, would like job running elevator in office building. Has no experience and would like to begin in low building."

### Last Stop

The elevator operator in a Birmingham hotel called each stop in the usual manner: "Eleventh floor." "Sixth floor." "Fourth floor." But at the lobby he threw open the elevator door with a flourish and proudly announced, "Birmingham!"

### Dreamer

The elevator girl in the hospital waited pointedly for the man to call his floor. "What's yours?" she said at last.

He beamed. "It's a boy."

She let him off at the seventh floor, maternity.

### 'COLD DEMONS' STRIKE JIMMY!

**It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE — NOT GOOD FOOD**

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different! Doctors say that many other laxatives start their "flushing" action too soon — right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes mostly waste, not good food! You avoid that typical weak, tired, run-down feeling. Use FEEN-A-MINT and feel your "peppy," energetic self — full of life! Get FEEN-A-MINT! No increase in price — still 25c, 50c or only 10c.

Search your plant for iron and steel scrap... help our country to get enough steel

It takes scrap... to make steel. Multiply the amount of iron and steel scrap in your plant by 2... that's the amount of steel that could be made if that scrap were salvaged. Today, there's not enough scrap coming in from normal sources to keep steel mills and foundries producing at capacity.
