SPORTSMAN'S HORIZON

By JIM RHODY

Seasonal Delight

Just as the home gardener revels in his seed catalogs each year, with their myriad attractions in riotous color and enormous profusion, the angler, too, shares kindred thrills and delights as he thumbs ecstatically through the many fishing tackle catalogs which come his way.

In fact, it is the arrival of these catalogs which happily bridges the span between the last lingering weeks of snow and ice and the first days of real fishing weather. There are many of us, indeed, who would be hard put to contain our fishing fever to an extent which keeps us out of our home state mental institutions were the fishing catalogs not at hand to keep our minds busy and "wish-booking" until we can get our casting arms busy.

Set Anglers "Wishing" Naturally, space here doesn't permit the fine tributes we'd like to pay to all the tackle manufacturers who have sent catalogs, but we believe the industry would bear us no ill-will for letting the annual Heddon catalog serve as a symbol for them all.

Once again the Heddon people have issued an outstanding catalog, a beautifully-colored booklet, with a color picture of a rainbow trout suitable for framing as an added treat.

As does all the other catalogs, Heddon's instantly sets the angler's mind spinning with themes such as "I wish I had that," and "I wish I had this." Like the others, too, it symbolizes practically everything the angler and his brethren might want or need.

Offers Tiny Two We were particularly interested, however, in the company's offering of a new series of lures for the light-tackle addict. We liked these because we're planning to do a comprehensive article here soon on what the industry has cooked up for the fellows who like the long, light rods, tournament-type reels and 4-to-6-pound test lines. This equipment is the plug-caster's answer to spinning gear, and with it he can handle most spinning-type lures and cast them almost as far.

Anyway, as information for those who'd like to know, at least, where some of these light-tackle lures may be found, the Heddon folks, who pioneered fishing plugs in the first place, have come up with their "Runt" lure in a 1/5 ounce weight, a tiny Torpedo, with a spinner at, and the justly famed and reliable "Lucky 13" both in the 1/5 ounce size. We'd like to know how you can beat that for light-tackle gear. This tiny trio of lures, with all Heddon's "know-how" behind them, will fill the bill for many an angler.

Good Deal

Here's good news for anglers who have been turning more and more to Kentucky's lakes for record bass catches.

The State's Game and Fish Division has introduced in the Legislature a bill which would provide for the sale of non-resident fishing license at \$2 for 10 days. Heretofore, non-resident licenses were sold for periods of only three days and cost \$1 each. That meant that the out-of-state angler would have had to pay \$4 for 10 days fishing rights, whereas under the proposed legislation he can now enjoy that privilege for only \$2.

This action is but another in continuing steps by Kentucky to capitalize upon its various attractions to tourists, and chief among these are certain to be the state's many and vastly-improved fishing waters.

May Eclipse Others

Already such well-paying-off lakes as Herrington, Dale Hollow and Kentucky have won renown throughout all anglerdom, but coming on even now is another body of water that bids fair to eclipse all the others. And that is the newly-impounded Wolf Creek reservoir in the southeastern part of the State.

With impoundment complete less than four months, anglers were reporting catches of as many as 200 bass in one outing, but with only some six or seven of this number being "keepers." But with impoundment almost two years old this spring and summer, the "little ones" should have grown to "keeper" size and thus have put into the making a veritable angling paradise.

The State Game and Fish Division is going along farther with sportsmen by including in that same legislative measure a provision empowering the director to remove fish creel and size limits wherever deemed advisable.

About Trout

Sometimes trout hang in the water at the very tail of a pool, just before it breaks into the next riffle, and take insects from the surface as they float along. When they are here it usually is possible to sneak up on them from downstream, but it is hard to get a natural float from this position.

Sometimes a very short cast from cover can be used, and at others it is possible to float a fly down to them from upstream.

HOUSEHOLD HINTS

Hanging Brooms
Nail two empty spoons to the wall of your kitchen or the inside of your closet so idle brooms won't be forever falling over. Hang the broom upside down on the spoons.

Save Old Socks

Don't throw away old woolen socks. Put them over your shoes when you start painting walls or furniture. If paint spills you can wipe it up with your foot.

Pie Dough

A good way to handle pie dough is to place it on waxed paper. Gather up the paper into a bag and manipulate the dough through the paper until it forms a ball and is well blended.

Waldorf Salad

To make a Waldorf salad, squeeze the juice of a lemon over about two cups diced apples, add a cup of finely cut celery and a half cup of broken walnut meats. Mix with enough mayonnaise to moisten and sprinkle with paprika before serving on salad greens.

SPEDDY LONG-LASTING relief for RHEUMATISM ACHES-PAINS

Don't "dose" yourself. Rub the aching part well with Musterole. Its great pain-relieving medication speeds fresh blood to the painful area, bringing amazing relief. If pain is intense—buy Extra Strong Musterole.

"Miracle Drug" say SURIN Users

Pains of Arthritis, Rheumatism, Neuritis, Lumbago, Bursitis, Relief Can Start in Minutes

There's no internal dosing with SURIN. Nothing to swallow and wait anxiously for relief. You simply apply SURIN right at the point of pain and blessed relief starts as penetration beneath the skin gets under way. Of course there's a reason for this wonder-working new external fast pain relief medicine. It's methacholine, a recent chemical born of research in a great laboratory. It acts speedily to aid penetration of SURIN's pain-quelling ingredients. Methacholine also causes deeper, longer-lasting pain relief and increased speed-up of local blood supply.

Tested on chronic rheumatism in large university hospital it brought fast relief to 75% patients and in home-for-the-sick 75%. Totally different from old-fashioned rubs and liniments, modern SURIN brings faster relief, longer without burning or blistering without unpleasant odor or grease. Simply smooth on SURIN at the point of pain and feel pain ease in minutes. Money back at your drug store if SURIN doesn't relieve muscle pain faster and better than the best you've ever used. A generous jar costs \$1.25. SURIN is not a cure for any of these conditions.

Effective Cough Syrup, Mixed at Home for Economy

No Cooking. No Work. Real Saving. Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll swear by it.

Make a syrup with 2 cups granulated sugar and one cup water. Boil and evaporate. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Now put 2 1/2 ounces of Pinex into a pint bottle, and fill up with your syrup. This makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine.

And you'll say it's really excellent for quick action. You can feel it take hold swiftly. It loosens phlegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get restful sleep.

Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations. Money refunded if not pleased in every way.
