Now recruiting male & female ethnic Chinese individuals for compensated fecal donations
At Bright Medicine Clinic, we specialize in Fecal Microbiota Transplant (FMT) for the treatment of recurrent Clostridium difficile infection. FMT has a 90% success rate in treating this potentially deadly disease, which is a cause of death for approximately 29,000 people annually in the USA alone. In FMT, we extract the bacteria from human stool utilizing healthy and rigorously screened donors. At present, we are helping to establish an FMT stool bank in Hong Kong.
Currently, we are recruiting healthy, male and female, ethnic Chinese individuals between the ages of 18-30 who meet our rigorous criteria to qualify for our donor stool bank. Donors should have no chronic disease, no mood disorders, not be overweight, not have taken antibiotics in at least six months, not have need of corrective lenses for vision, and must have a healthy, formed bowel movement every day or almost every day.
Healthy individuals who meet our criteria to be a stool donor would be compensated at \$50 per stool donation.
If you are in excellent health with very strong digestion, live in Portland proper (or can drop stool off in NE Portland), and meet the criteria above, please contact us for further information on how to become a potential stool donor.
\$50 per donation compensation
